Bolt Jr.: Our Favorite Dogs (Black Rabbit Books)

#2272266 Bulldogs (Library Binding)

written by Marysa Storm

A sleepy bulldog relaxes in its comfy bed. But the minute its human sits down, it gets up and pads over. This dog would much rather be in its owner's lap. Bulldogs are beloved dogs with special characteristics and loyal personalities. Colorful spreads with vibrant images, closely leveled text, and engaging infographics share the body features, life cycle, and unique needs of this sweet breed. A captivating design makes Bulldogs the perfect choice for animal lovers, early reports, and STEM and biology lessons. On-page vocabulary definitions, a table of contents, a glossary with pronunciations, further resources, and an index all enhance comprehension in a nonfiction beginning reader format.

 <p>#2274896 Narwhals (Library Binding) <i>written by Katie Woolley</i> Designed to spark a love of reading, Reading Gems is a supplementary reading program that supports a child's learning at school. The books are graded into four levels to perfectly suit a child's reading ability, from an emerging reader to a confident, independent reader. Level 1 is for children who are taking their first steps into reading. The non-fiction themes and subjects are familiar to young children, and there is lots of repetition to build reading confidence. Parents and teachers can be reassured that children are reading books that support their ability, challenge their reading skills and encourage reading confidence with every word on the page. 978-0-7112-7153-1 ©2022 5-3/4 x 8-3/4 32 pgs. #2270756 World's Most Deadly Animals (Library Binding)
written by Karen McGhee
 All over the world, there are animals that use their venom, claws, jaws, and more to take down prey. From ambush killers like crocodiles to lions who stalk and pounce to kill their prey, this book has it all. Up-close photographs of deadly animals readers likely would never see in person, like the terrifying Brazilian wandering spider, accompany detailed facts about how dangerous each animal is as well as their size, body adaptations, and habitat. The relative danger to people is covered, particularly for animals, like hippos, that are known to harm many people.

#2270758 World's Most Extreme Animals (Library Binding)
written by Karen McGhee
 From the exceptionally large molars of the panda bear to a crab that can punch at a high speed, animal adaptations can be spectacular- and extreme! In this book, dozens of animals from all over the world are described in incredible detail with accompanying full-color photographs. Spiders with a superlong leg span, whales that click at decibel levels like that of an airplane, and more will engage readers with the animal kingdom in a new and exciting way. Divided by continent, this book also aids readers' understanding of differences in habitat and animal type by geographic location.

X-treme Facts: Space (Bearport Publishing)

#2270616 Planets and Moons (Library Binding)
written by Catherine Finan
 Did you know that the moon we see in the sky is not the only one out there? Other planets have moons, too--Saturn has 82! And did you know the weather is always stormy on Jupiter? Or what about that Venus has a bunch of volcanoes? Scientists are finding out more about planets and moons every year! Discover extreme facts about planets and moons in this fun and kooky book.
