

Hi all,

Attached are the 4 bids we received for the Northome school forest sale.

Quick summary of results below:

\$50,012.00 Don Gross

\$53,864.96 Krueth Logging

\$55,151.00 Forseen Logging

\$55,725.00 Dan Affield

Typically, we select the highest bidder. I need someone from the school to reach out to me with on a decision on what bid we want to except. All the bids were fair in my opinion. I will be in and out of the office the next week but feel free to call me on my cell phone at [REDACTED]. The other option is to reply to this email. Once I here back I will let the winning bidder know and move onto the contract signing portion on the sale.

Be aware, the sale is bid based on an appraised volume. The sale may not cut out to the appraised volume. We use consumer scaling to come up with a scaled volume which is what the total sale value will be calculated at. Basically, the logger will pay for the wood that is cut and hauled to the mill.

I will reach out to the loggers to let them know we are working through the bid process. Any question on this stuff let me know.
