*Original Budget was established in 2018, based upon a Facility Assessment that was performed at that time. Since inception, the program has realized unprecedented escalation in material and labor costs, as well as significant changes to the scope for each of the projects. The bond budget has since been updated to account for these changes.

** Completed & Committed Projects" - Those in which a major CMAR/Contractor has been Contracted, or assessment based project total has exceeded 90%
