Dear Mr. Choate:

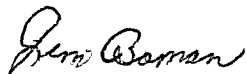

On March 20, 2014 I had the opportunity to serve as one of the panel members for the Zone One Act competition. I was extremely impressed with your school's production of "The Rimers of Eldritch." As I told the cast, crew and director that it was one of the best productions of this show that I have seen.

It was obvious they were enjoying their performance. The set and costumes were excellent. Mr. Morganstean is obviously a creative director and his students are fortunate to work with him. The actors displayed outstanding professionalism in their performance.

You can be very proud of how well these students conducted themselves during the day. They were an outstanding representation of the quality of student you have at Christoval High School. Rest assured that under the leadership of Mr. Morganstean your theater program is in excellent hands.

I wish them luck at the next level of competition. I understand they advanced from District competition to Area. I will continue to check their success as the season advances. Again, I commend all involved for the professional production they presented. As we say in theater "break a leg", as they continue through the One Act process.

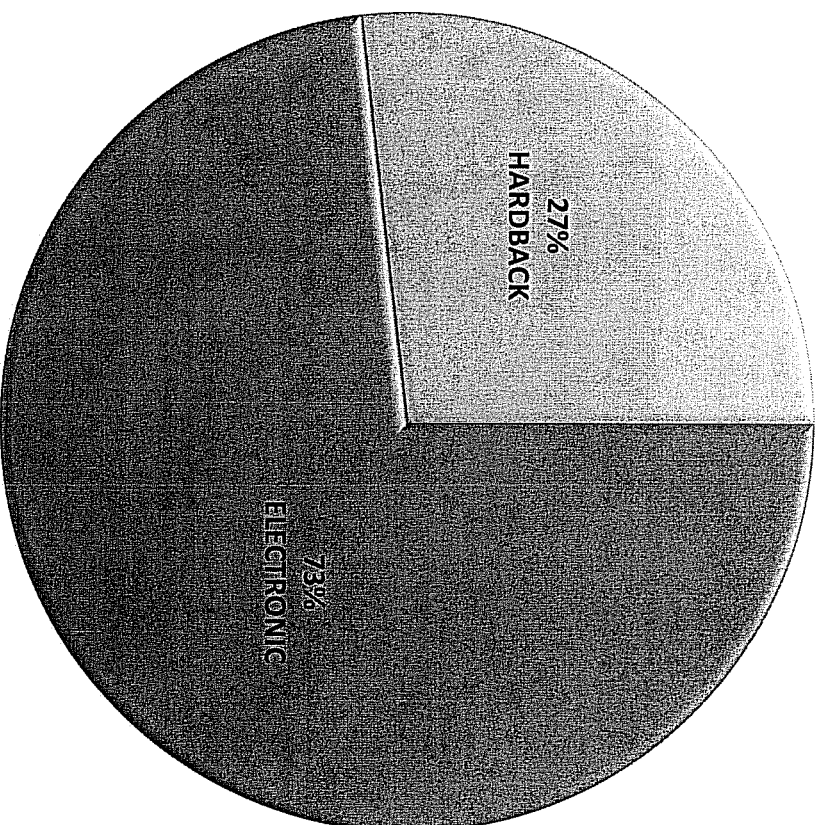

Sincerely yours,

A handwritten signature in cursive script that reads "Jim Boman".

Timestamp	Do you have access to a computer at home?	If you answered YES to question 1, do you have internet access?	If you have a laptop/tablet at home, what has prevented you from bringing it to school for use?	Would you prefer to bring your own laptop/tablet or use the school's?	Which would you prefer: Electronic textbook or a hardback textbook to take home as it has been?	Do you have any thoughts or suggestions for technology improvements at school?	What grade are you in?

4/4/2014 9:19:37	YES	YES	I don't want to lose it or someone take it, or people take it and usually take a bunch of pictures on it and it gets annoying, but I think it would be cool to us it. I would rather us the computers than text books. I also think it would be easier to use than a regular book, we could also be able to learn more because we would find the answers quicker.	SCHOOL'S	ELECTRONIC TEXTBOOK	more plug ins at school, a place where we can charge them without people messing with them, a safe place to put them.	9th

4/4/2014 9:20:33	YES	YES	I do not have a laptop that I can bring to school at the moment, but I am planning on obtaining one.	PERSONAL	ELECTRONIC TEXTBOOK	I would like for the school to have a better wifi system, I also think it would be easy and accessible to use our own devices during class for notes, pictures related to class...ect. Most kids use their phones/technology pretty much every moment they can. Knowing this, it would be reasonable to do so. Having data on our phones will allow us to study on the go without lugging around a 200 lbs. backpack. I look forward to watching my beloved school catch up to today's wonderful technological advancements. Thank You, Katelyn Mayfield	9th
