

## Student School Board Representatives

- **Kennedy Phillips**
- **Hunter Napa'a**
- **Justin Santos**
- **Beni Berhe**

### **Why?**

Our collective leadership wants to focus on empowering students to collaborate on designing a student experience that meets the collective learning and opportunity needs of students and their families.

### **Format**

Two students elected by the student body to represent Parkrose High School and the Parkrose School District to be the voice of students to effectively design an effective academic program that supports the social and emotional needs of all students.

- **Attend monthly board meetings** (2nd and 4th Mondays) to provide input and voice on the district and student goals. The meetings to attend will be determined by the board and students at the August retreat.
- Gather feedback from district students regarding the district and student goals. This includes interviewing others, creating surveys, and working with student leadership to promote and advocate for innovative ideas to create a more relevant and meaningful school experience for all students.

### **Support Provided**

- A class period to complete board work. (Zero period was suggested) This would allow for the team to meet and complete board and leadership work.
- Two alternate leaders to learn the roles and provide support when leaders are not available.
- A stipend to support students who attend meetings after school hours
- Ongoing meetings with leadership advisor and superintendent to learn about board norms and guidelines.

### **Key Dates**

- Thursday, August 18th at 9 am to Noon (Plan to have lunch and we would love all 4 leaders to attend) I believe we will meet at Parkrose Media Center, and Ms. Alfrey is invited as well.

### Student School Board Representatives

- The two student reps will attend at least board business meetings and pre-identified work sessions (We will calendar together in the August meeting)
