

C-I EARLY CHILDHOOD

Outreach Efforts in the Community

Purpose of Outreach

The purpose of our outreach efforts is to build meaningful connections with families in our community, oftentimes serving as their first point of contact with Cambridge-Isanti Schools. We aim to ensure that families are aware of and able to access the resources and support available.

Grounded in the Strategic Plan

Our outreach efforts are grounded in the core beliefs and strategic priorities of Cambridge-Isanti Schools. These programs:

- **Foster positive personal relationships** by serving as the first point of contact for many families.
- **Connect families with resources** that support early learning, school readiness, and long-term success.
- **Reflect our belief** that:
 - *Engagement in lifelong learning begins at birth.*
 - *Involvement in meaningful activities enriches life.*
 - *Strong communities and schools support each other.*
- **Advance our district objective** that *all young children and their families will have access to opportunities for early learning and school readiness.*
