Dear Julie Stearns,

My name is Patrick Oliphant and I am father of two students in our school district and I am also an Engineering Manager for ABM Engineering. I would like to formally request, via the Freedom of Information Act, access to either a digital or paper copy of the **2021 Tria Architecture Facility Assessment/Architectural Report** that was assembled for the Summit Hill 161 School District (referenced in the attached 11.29.23 B&G presentation). It is my experience in dealing with these types of reports that the Architectural firms provide approximately 3 paper copies of the report and also digital files of the report to the client, so I believe both digital and print copies should be available.

Per the SHSD161 FOIA Request Procedure, please see my personal information listed below:

Please let me know if there is anything else I can do or provide (or something I missed) to further assist in this process. Thank you for your help and for all of your efforts. Have a great day!
