Tanya Cardenas - Pitsco lab training	8/31/2010
Yolanda Rueda - Pitsco lab training	8/31/2010
Candace Bader, Liz Frerich, Chica Hernandez, George Burks, Frank Taylor, Jaime Ballew - Ascend Math, Reading Plus	9/2/2010

#### Principals' General Narratives:

##### Brackett High School

We have had a very good start to the new school year. A group of science and math teachers are learning two new programs (Reading Plus and Ascend Math) to help us in our RTI program to assist struggling math and reading students. Football, Cross Country, Volleyball, Band, and Cheerleader activities are underway. Students, coaches, and directors are working hard to represent the school at a high level in all of these endeavors. New members of the faculty and staff are fitting in well and quickly becoming a valuable part of our team. I believe we are on track to have a very successful year.

The high school and junior high faculty, as always, would like to express our appreciation for the support and leadership from the school board, superintendent, and everyone in the central office. Thanks.

Frank Taylor

##### Brackett JHS

BJH students have had a good beginning for the 2010-2011 school year. We have the PITSCO Synergy Lab installed and teachers trained and it will be in use very soon. The modules will help with math, science, reading and history skills while at the same time providing students with opportunities to explore careers options using these skills.

We have had one student break his arm during football practice. He was using his arm to keep from falling and it snapped. He is back in school as of Tuesday, September 07, 2010 and doing well.

Students who are in need of immunizations have had letters sent to parents by School Nurse Nicole Frets on September 7, 2010. Many of the students need one or a combination of the Meningococcal, Tdap, and Varicella vaccines.

Teachers are involved and working diligently with the students to get them prepared for the many things to come this school year. Custodial and Maintenance Staff have things looking good and are doing a good job of keeping things clean and in good shape.

Respectfully submitted,

George T. "Stoney" Burks

Assistant Principal,

BISD Secondary Schools
