7510 - USE OF DISTRICT FACILITIES

~~The Board of Education believes that the school facilities of this District should be made available for community purposes, provided that such use does not infringe on the original and necessary purpose of the property or interfere with the educational program of the schools, and is harmonious with the purposes of this District.~~ The Board believes that the school facilities of this District should be made available for lawful non-school purposes, provided that such use does not interfere with use for school purposes, by school related groups, or for school-related functions. No non-school related group or entity may promote an activity to occur on school grounds under this policy in any manner that conveys the impression that the School District supports, endorses, or is a partner with the group or individual's cause.

The Board will permit the use of school facilities when such permission has been requested in writing by a responsible individual, organization, or group of citizens and has been approved by a District official.

District facilities shall be available for the below-listed uses. When there are competing interests for the use of facilities, approval will be given according to the following priorities:

- A. uses directly related to the schools and the operations of the schools
- B. uses and groups indirectly related to the schools

Recreational Activity

Any outside party using District facilities for recreational activity must complete the appropriate form prior to such usage. The District does permit to outside groups the use of swimming pools and weight rooms.

Should all or any part of the District's community be struck by a disaster, the Board shall make District grounds and/or facilities available, at no charge, for the housing, feeding, and care of victims or potential victims when requested by local, State, or Federal authorities. The District Administrator should meet with the Lincoln County to establish a disaster preparedness plan in order to ensure that proper procedures are established to minimize confusion, inefficiency, and disruption of the educational program.

No liability shall attach to this District, any employee, officer, or member of this District specifically as a consequence of permitting access to these facilities.
