Understanding ISAT 2.0 Scores & Data

After students take the ISAT 2.0, their results are reported in two primary ways: scaled scores and achievement levels.

A scaled score is the student's overall numerical score. These scores fall on a continuous scale (from approximately 2000 to 3000) that increases across grade levels. Scaled scores can be used to illustrate students' current level of achievement and their growth over time. When combined together across a student population, scaled scores can also describe school- and district-level changes in performance, as well as reveal gaps in achievement among different groups of students.

Based on their scaled scores, students fall into one of four categories of performance called achievement levels. The tables below show the range of scaled scores for each achievement level for mathematics and English language arts/literacy:

Achievement Level
English Language Arts and Mathematics Cut Scores

Grade Level	Level 1		Level 2		Level 3		Level 4	
	From	To	From	To	From	To	From	To
3	2001	2366	2367	2431	2432	2489	2490	2811
4	2032	2415	2416	2472	2473	2532	2533	2867
5	2056	2441	2442	2501	2502	2581	2582	2916
6	2079	2456	2457	2530	2531	2617	2618	2937

Minidoka Schools

State & District ELA and Math Percent Proficient Performance 2014-2018
 Same color groups are similar cohorts from year to year.

Percent proficient data reflects the number of students who scored proficient or advanced on the ISAT 2.0. When studied over time percent proficient allows us to see whether performance is improving. These charts can be studied across the page by grade level or by colored cohorts over time.

State & District Average Scale Score Growth Comparison Same color groups are similar cohorts from year to year.

Average growth from year to year is shown below for students who were in 3rd-6th grade in 2014-15 who were 6th-8th graders in 2017-18. Studying average growth comparisons allows us to see if what and how we are teaching is getting us the results we want. As an aside, it is interesting to note the only grades in which we exceeded the State average growth rate in ELA or math was with our 2014 6th grade class from 2014-2017 in ELA.

State ELA SS	2014-15	2015-16	2016-17	2017-18	Average SS Growth
