

# 26-27 Proposed Course

## Elementary

### Science Bookshark 1 - BK

In this course, students will learn about light and sound waves, animal life and survival, the solar system, and engineering design. Science learning will take place through literature and experiments.

Elementary | Essential | Full Year | Platform: BookShark | This course can be taken ONLY once

---

### Science Bookshark 2 - BK

Students will learn about the interdependent relationships of plants and animals in ecosystems, explore what the world is made of, and examine the water cycle. Science learning will take place through literature and experiments.

Elementary | Essential | Full Year | Platform: BookShark | This course can be taken ONLY once

---

### Science Bookshark 3 - BK

In this course, students will learn about forces and interactions, life systems and cycles, weather and climate, and engineering design. Science learning will take place through literature and experiments.

Elementary | Essential | Full Year | Platform: BookShark | This course can be taken ONLY once

---

### Science Bookshark 4 - BK

Students will learn about energy, Earth's systems, including rock formations, tectonic plates, and natural hazards; the properties of waves; and the physical characteristics of living things. Science learning will take place through literature and experiments.

Elementary | Essential | Full Year | Platform: BookShark | This course can be taken ONLY once

---

### Science Bookshark K - BK

Students will learn about wildlife and ecosystems, weather patterns and the purpose of weather forecasting, and simple machines and physics. Science learning will take place through literature and experiments.

Elementary | Essential | Full Year | Platform: BookShark | This course can be taken ONLY once

---

## High School

### **Art in World Cultures - ED**

Explore the artistic characteristics of the Renaissance, Americas, Baroque, Romantic, and more. Learn the elements and design principles of art, and about some of the greatest artists in the world, while creating your own art, both on paper and digitally.

High School | Non-Essential | First or Second Semester | Platform: Edynamic | This course can be taken ONLY once

---

### **Fashion Design - ED**

Learn what it takes to get started in the fashion industry, from the careers available to new technology and trends reshaping the industry every day.

High School | Non-Essential | First or Second Semester | Platform: Edynamic | This course can be taken ONLY once

---

## 26-27 Title Change

### Music Progressions 4 (Previously Music Progression 4-5)

In this online course the elementary musician will continue their personalized study of music by focusing on a specific instrument or voice at an intermediate level. The young musician, in concert with their teacher, will progress through their learning plan to increase their fluency in theoretical and practical music knowledge. Online assignments include exciting listening reflections, general music knowledge for their instrument or voice, and activities enhancing independent musical abilities such as musical staff review and sight-reading, intervals and ear training, more complex rhythm and melody exercises, expression, and expanded music history. Online assignments may also include a deeper look into instruments of the band, orchestra, and voice types.

Elementary | Non Essential| Full Year | Platform: GLOBE| This course can be taken ONLY once
