

IKF GRADUATION REQUIREMENTS

Regular Education

A minimum number of units of credit are required for graduation by the Arizona State Board of Education. Listed below are the units that must be completed before a student may receive a high school diploma.

Graduation requirements may be met as follows:

- A. By successful completion of subject area course requirements.
- B. By mastery of the standards adopted by the State Board of Education and other competency requirements for the subject as determined by the Governing Board in accord with A.A.C. R7-2-302.02 and rules established by the Superintendent.
- C. By earning credits through correspondence courses (limited to one [1] in each of the four [4] major subject areas) and/or by passing appropriate courses at the college or university level if the courses are determined to meet standards and criteria established by the Board and in accord with A.R.S. 15-701.01.
- D. By the transfer of credits as described in Policy JFABC.
- E. An out-of-state transfer student is not required to pass any competency test to graduate if the student has successfully passed any statewide assessment test on state adopted standards that are substantially equivalent to the State Board Adopted Academic Standards.

Graduation requirements as determined by the Arizona State Board of Education (R7-2-302.02) and the District Governing Board are as follows:

English	4.0 units
Math	4.0 units*
Science	3.0 units**
Social Studies	3.0 units***
American Government and Arizona Government	0.5 unit
American History - including Arizona History	1.0 unit
World History and Geography	1.0 unit
Economics	0.5 unit
Fine Arts or Career, Technical and Vocational Education	1.0 unit

Physical Education
Electives
Total

1.0 unit
67.0 units
22.0 units

* Math courses shall consist of Algebra I, Geometry, Algebra II, (or its equivalent) and an additional course with significant math content as determined by the Governing Board. In lieu of one (1) credit of Algebra II or its equivalent course content a student may request a personal curriculum in mathematics following R7-2-302.03.

Pursuant to the prescribed graduation requirements adopted by the State Board of Education, the Governing Board may approve a rigorous computer science course that would fulfill a mathematics course required for graduation from high school. The Governing Board may only approve a rigorous computer science course if the rigorous computer science course includes significant mathematics content and the Governing Board determines the high school where the rigorous computer science course is offered has sufficient capacity, infrastructure and qualified staff, including competent teachers of computer science.

** Three (3) credits of science in preparation for proficiency at the high school level on a state required test.

*** Through the graduating class of 2025, the competency requirements for social studies shall include a requirement that, in order to graduate from high school or obtain a high school equivalency diploma, a student must correctly answer at least sixty (60) of the one hundred (100) questions listed on a test that is identical to the civics portion of the naturalization test used by the United States Citizenship And Immigration Services ("the Civics Test"). The Governing Board may determine the method and manner in which to administer the Civics Test. A student who does not obtain a passing score on the Civics Test may retake the Civics Test until the student obtains a passing score.

Beginning with the graduating class of 2026, the competency requirements for social studies shall include a requirement that, in order to graduate from high school or obtain a high school equivalency diploma, a student must correctly answer at least seventy (70) of the one hundred (100) questions listed on a test that is identical to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services. The District school shall document on the student's transcript only a pass or fail designation that the student has passed or failed the test.

A student in grade seven (7) or eight (8) may take the test described in this paragraph, and if the student correctly answers at least seventy (70) of the one hundred (100) questions on the test:

- a) The district school or charter school shall document on the student's transcript only a pass or fail designation that the student has passed or failed the test required by this paragraph.

- b) The student is not required to take the test required by this paragraph again in high school.

Each school district and charter school shall report to the department of education all of the following aggregate data, organized by grade level, relating to the test that is identical to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services required by subsection A, paragraph 3 of §15-701.01:

1. The median score.
2. The percentage of students who passed by correctly answering the minimum number of questions required to pass the test pursuant to subsection A, paragraph 3 of §15-701.01.
3. The percentage of students who failed by correctly answering fewer than the minimum number of questions required to pass the test pursuant to subsection A, paragraph 3 of §15-701.01.
4. Any other data required by the department relating to the test.

A school district or charter school may not include the personally identifiable information of any student in the data reported to the department of education under subsection L of §15-701.01.

Special Education

Listed above, under "Regular Education," are the requirements that must be completed before a student may receive a high school diploma. Completion of graduation requirements for special education students who do not meet the required units of credit shall be determined on a case-by-case basis in accordance with the special education course of study and the individualized education program of the student. Graduation requirements established by the Governing Board may be met by a student as defined in A.R.S. 15-701.01 and A.A.C. R7-2-302.

Students who receive special education shall not be required to achieve passing scores on the Civics Test in order to graduate from high school unless the student is learning at a level appropriate for the student's grade level in a specific academic area and unless a passing score on the Civics Test is specifically required in a specific academic area by the student's individualized education program as mutually agreed on by the student's parents and the student's individualized education program team or the student, if the student is at least eighteen (18) years of age.

Competency requirements. Any student who is placed in special education classes, grades nine (9) through twelve (12), is eligible to receive a high school diploma without meeting state competency requirements.

State Seal of Biliteracy. The district may voluntarily participate in the state seal of biliteracy program by notifying the Superintendent of Public Instruction of such intention. Schools will then identify the students who have met the requirements to be awarded the state seal of biliteracy, which shall be affixed to the diploma and noted on the transcript of each student who has met the requirements.

CPR Instruction and Training. The district shall provide public school students with one (1) or more training sessions in cardiopulmonary resuscitation, through the use of psychomotor skills in an age-appropriate manner, during high school.
