

# Special Programs Board Report

## February 2013

### **Special Education:**

Special Education teachers have been working hard on the file review process for the year. There have been many lessons learned in this process. We will have more in February to complete.

The focus in our PLC continues to be data collection and staff are working in February to analyze this information and use it to inform instruction.

SPED Caseload: 129 Students K-12

### **ELL:**

Nothing new to report.

### **TAG:**

I would like to acknowledge Sheridan High School for their work on considering students for TAG referral/evaluation!
