

Athletic Report

With summer going we have had several of our younger and older athletes in Brackett ISD take part in summer camps, with several more to come later in June. There have been several summer projects going on this summer athletically as well to improve our facilities for our athletes next year. This includes painting of some areas, sound systems and the moving of some facilities to better facilitate some of our needs for next season. We have also undertaken a project to paint and build new desks in the coaches office at the field house. I would like to thank the administration and maintenance staff with all of their help of these projects. I know that the students are enjoying their time off, but are also putting in some work this summer and are excited about the upcoming athletic season.

Justin Morris,
Athletic Director
