Subject: Request from the City of Hillsboro to acquire property partially owned by HISD.

Rationale: The City of Hillsboro has been in communication with HISD about another property that HISD owns jointly with the City and County due to tax foreclosures. The City has indicated they have an interest in the acquisition of this property. In the attached documentation, a description and map of the property is enclosed. Even though the property is across the street from the maintenance/transportation buildings, it is such a small piece of street front property that it would not benefit us to own or maintain it. Furthermore, it would be an advantage for our taxpayers if the City of Hillsboro is able to utilize the south end of this property to improve the flood zone situation during periods of heavy rain.

Recommendation: Approve the City of Hillsboro's request to convey ownership of the property listed in attached documentation and execute the deed of said property.
