Re: 2014-2015 & 2015-2016 CISD Calendar Recommendations

In the fall of 2013, a CISD Calendar Committee was formed consisting of teachers, parents and administrators. Each campus was asked to submit representatives to serve on the committee. In addition, there were two representatives from the central office who served on the committee, as well as three parents. The committee was facilitated by Dr. Turner, with assistance from CISD Administrative Intern, Mrs. Timilyn Whiteman.

The committee met three times throughout the fall/spring semester. We reviewed sample calendars including one from Region 10 and one similar to the current CISD calendar. The committee reviewed calendars from surrounding districts and local colleges. The committee solicited suggestions and ideas from their campus or parent group. Every campus had an opportunity to provide input to the committee. Each committee representative reported out the survey results from their campus. Several sample calendars were reviewed with two options selected to present to each campus. The committee took the recommendations from the campus and, working within the parameters established by the state, created an option to be presented at the January board meeting.

We are asking the board to adopt calendars for the 2014-2015 and 2015-2016 school years. Both calendars and grading periods are attached for your review. In addition, a draft copy of the calendars will be posted to the CISD website for community review.
