State Budget Signed Into Law

Governor Evers signed the compromise budget deal, completing the 2025-27 budget process. The deal passed both houses of the legislature. The deal saw special education reimbursement raised to an estimated 45% by the second year, high-cost special education to 90%, and an additional \$30 million invested into mental health supports. The deal also released \$40 million in early literacy funding and full funding of the Office of School Safety.
