

**FOREST LAKE AREA SCHOOLS
FOREST LAKE, MN 55025**

November 14, 2019

AGENDA ITEM: 10.6

TOPIC: New Course Proposal – Organic Chemistry

BACKGROUND:

Based on a survey of our science students indicating an interest in upper level course offerings, the science department considered potential areas of study in science that would provide logical next steps to our current course offerings.

PROCESS:

The Science department determined that *Organic Chemistry*, the next course in sequence to Chemistry A and B and/or AP Chemistry, would be a good fit and would provide students interested in science, chemical engineering, and health-related career fields the opportunity for further exploration and deeper study in these areas. The course outline and content overview accompanies this course proposal.

RECOMMENDATION: First Reading of Proposed New Course

**To be offered in 20-21 pending Board Approval*
