Mark Anderson, President
Riverdale Bench Canal Company

RE: Weber School District Owned Shares in Company

Mark,

Weber School District is currently pursuing an exchange with Taylor-West Weber Water Improvement District. WSD will surrender approximately 50 shares of Riverdale Bench in exchange for sufficient culinary water to service a new Elementary School in West Haven City, a High School in Taylor and 8 lots along 5100 W known as West Ridge Estates. WSD will retain 10 water shares with Riverdale Bench for carry water for the users in the ditch. WSD is requesting that Riverdale Bench approves this exchange with Taylor-West Weber Water.

WSD currently owns 238 shares of Riverdale Bench Water. The 178 remaining shares would be offered up for sale to whoever will pay the asking price of \$800 per share. If the shares do not sell at this price, WSD will retain ownership of the water shares.

If this is acceptable and approved by the Riverdale Bench Board, WSD will surrender the water certificate to Mark Anderson who will make the new certificates to the parties herein mentioned.

Sincerely,

Jon S. Ritchie
Weber School District
Board President
