School Improvement Grant

We are currently in the process of writing a school improvement grant. If awarded the grant would provide funding to facilitate a 3 hour Friday school at the Middle School for approximately 21 days throughout the year. It would also fund registration and travel cost for 4 teachers, the councilor and principal from the Middle School to receive training at the AVID Summer Institute. The grant is due March 15th and award announcements will be held April 15th.

Migrant Parent Advisory Council (PAC) Meeting

We held a PAC meeting on March 3rd. We received some great feedback and insight from the parents. They will be involved in the planning, operation, and evaluation of our program. We hope to take two parents to the State PAC meeting in Boise on April 12th.

ACCESS 2.0 Testing

The Access 2.0 has replaced the Idaho English Language Assessment (IELA). This test is required for all English Language Learners (ELL) students and is designed to provide English language proficiency information. We began testing all ELL students in the district last month and plan to finish administering the assessment this week.
