Achievement/celebrations

Without hesitation, this has been a wide open, full steam ahead, energy infused back to school. All staff have been engaged in learning, planning, and preparing for an exciting year. There are changes presently underway and others coming and I protest! **No, I don't.** I completely believe we are headed in the right direction. It takes change to have growth and change is hard sometimes. It's harder for some than others, because we become complacent and systemic in our actions. Just because something has been done a certain way for years, doesn't mean it's best practices. We have to grow for our students. Therefore, we must be diligent in our preparedness and push ourselves to grow.
