Needs Assessment Summary and Improvement Plan

Definition/Purpose:	<p>After your data analysis yields a summary of findings that results in a set of problem statements, the next step is to engage in the needs assessment process to identify root causes. The 5 steps of the root causes assessment include:</p> <p>Step 1: Clarify and prioritize problem statements Step 2: Establish the purpose of assessing root causes and establish the team Step 3: Gather data Step 4: Review data analysis Step 5: Root cause analysis</p> <p>The needs assessment process is intended to safeguard against planning or implementing strategies before the root cause of a problem is understood.</p>
----------------------------	---

Problem Statements (PS): <i>Problem statements are carried over from Section VI of the Campus Data Analysis tab OR Section VI of the District Data Analysis Summary tab.</i>	PS 1:	50% of all students met standard on 2016 STAAR Math assessment	is occurring because of Root Cause #1	Root Cause 1:	The campus has been focusing on reading and science instruction
	PS 2:	59 individual assessments on 2016 Math and Reading STAAR met Post Secondary Readiness Standard (final level II) and 33 individual assessments on 2016 Math and Reading STAAR met advanced level III	is occurring because of Root Cause #2	Root Cause 2:	The campus has been focusing on students who are struggling to meet standard

Identified and Prioritized Root Causes:

It is important to prioritize your root causes so that your improvement plan is targeted and focused. Although a TEC §11 campus/district improvement plan is critical to overall success, the TEC §39 targeted improvement plan is intended to address the specific reasons for low performance in the state accountability, PBM, or RF system.

If the district or campus would like to identify more than 10 root causes, contact the support specialist assigned to the review.

***** Important Notice! Improvement Required (IR) districts/campuses must complete the following attestation statement to fulfill TEC §39.106 requirements.*****

Attestation Statement: By checking the box, I attest that an on-site needs assessment has been conducted according to TEC §39.106 (b) and recommendations were made by the intervention team when considered appropriate. In addition, these findings have been recorded and are available upon request.

As a result of a focused reading and science instructional program, LBJ has strong Level II reading and science scores. Placing a focus on mathematics instruction that is similar in intensity and purpose will provide teachers with the expectations, tools, and strategies they need to create instructional experiences in math that will raise student competency levels. Analyzing math assessment data will inform instructional practices and measure group and individual progress.
