April Board Report

Transition Fair:

Families of students with services had the opportunity to attend the Perandoe Transition Fair on March 19th at Red Bud High School. Some high school students with services attended as a field trip. This gives students and families a chance to connect with programs, services, supports, education and employment resources.

Extended School year:

Vicky and I have been working to confirm the extended school year plans for this summer. Amber Crusier has been assisting us with a new parent registration form for those that qualify. This will assist our teachers and help manage the organizational side of ESY, such as transportation, attendance, etc.

Staff Shoutout:

The junior high special education department spent a day assessing the needs of all students with services and developing a schedule to ensure that all students are placed appropriately according to their individualized education plans. The team did a great job working together to accomplish the task.

ACT:

Preparation for ACT testing has been completed. Students with services are prepared to test with their appropriate accommodations.
