Dollanur

Hey Joe,

The 2' x 5' x 2" panels are going for \$53 each. You would need 62 of those to cover the 124'. The 6 cutouts would be \$50 each. Shipping will run you about \$800. As far as install goes, I'd have to get back to you on that. We have a guy out of Middleton that does the install for us but it's about a 7 hour drive to get up to you and the soonest he could possibly do it, if he can, would be sometime this summer.

Thanks,

Reggie Banuelos

Comment: I am looking for a quote on a wall mat that would be 124' feet long with 6 cutouts for outlets. 5' feet tall. I am looking for shipping and installation also.
