

Weber School District
Technical Services

Memo

To: Superintendent Gina Butters, Weber School District Board of Education
From: Dr. Jennifer Boyer-Thurgood, Technical Services Director
CC: Brock Mitchell, Dax Teuscher
Date: October 22, 2025
Re: Purchase Request- Data Center Servers

At this time it is necessary to replace our Cisco servers and switches in the Weber School District Data Center. These servers and switches have been in place for over 6 years. The servers and switches are the physical hardware necessary for the successful operation of the overall network. They are the backend for the district security cameras, wireless APs, Chromebook connectivity, IP phones, PowerSchool backup, and day-to-day server operations. Funds for this purchase are from regular operation budgets.

At this time, I am requesting board approval for the purchase of the hardware and professional services for a total cost of \$281,608.45.

Thank you for your consideration of this purchase. As always I appreciate your continued support of technology in the district. If I can provide further clarification or answer questions, please contact me at 801-476-7980.

Thank you,

Dr. Jennifer Boyer-Thurgood
