

Pana High School
Report to the Board of Education
August 2026

- 9th Grade 102
- 10th Grade 95
- 11th Grade 107
- 12th Grade 88
- Total 391

The High School is in good shape. The custodians have done a fantastic job getting the building ready for the school year. We have new graphics on the front windows and on the gym entry doors.

We are excited to roll out the new Panther Pack program for high school students who struggle with food security on the weekends. Food donations are used to supply students with non-perishable food items on the weekends.

PHS has also initiated an attendance education campaign on district socials. The goal is to educate our families on the importance of maintaining good attendance and school procedures related to attendance. [Attendance Matters](#)

Freshman orientation went well at the high school. Approximately 90% of the freshmen attended. They were issued their chromebooks at the orientation.

Freshmen will also be placed in Freshmen Academy during WIN time. They will take part in curriculum to help them adapt and be successful in high school. Weekly grade checks and attendance goals are also part of the academy structure.

The high school is fully staffed to start the year for the second year in a row!

The first two days went well.

- Students were able to get their schedules and be in class in a timely manner.
- Parking and traffic procedures are in place and parents are learning the routine.
- Chromebook handout took place on the first day. The improved process had all students in class by 8:04.

PHS will become a community of learners who consistently promote and support individual growth and empower productive citizens.

We scheduled class meetings for Chief Bland to speak with our students. Those meetings are happening this week.

Open House at the High School will be August 20th from 4:30-5:30 pm.

Be a Part of the PRIDE!

PHS will become a community of learners who consistently promote and support individual growth and empower productive citizens.
