
Board of Education

ACTION

TITLE: Consider Approval of Partnership Application Resolution

DATE: February 26, 2018

RESPONSIBLE ADMINISTRATOR: Terry Morawski
Chief Operations Officer

BACKGROUND/CONSIDERATIONS:

Every two years, school districts in Arkansas are required to submit an updated Master Facilities Plan to the Arkansas Division of Public School Academic Facilities and Transportation. The plan has been updated and reviewed by district staff, Corgan/Childers Architects and State Facilities Consultant Harvie Nichols. The district is not obligated to complete projects listed in the Master Facilities Plan.

In addition to the Board's approval tonight, staff held a public hearing to receive comments on the Master Facilities Plan on February 22 at 5 p.m. at the Service Center. This public hearing was advertised in local media, as well as on the district's web page and social media. A record of the meeting, as well as the recorded comments, are included in the attachments to this item.

If approved, the signed Board Resolution will be submitted to the Arkansas Division with the 2018 Partnership Applications.

RECOMMENDATION:

The administration recommends the Board approve the resolution in support of State Partnership Applications.

If the Board agrees, the motion would read:

Move to approve the 2018 Partnership Project Application Resolution.
