Independent Auditor's Report

Members of the School Board Southeast Island School District Thorne Bay, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Southeast Island School District (District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Southeast Island School District as of June 30, 2021, the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note III.D. to the financial statements, in 2021 Southeast Island School District adopted new accounting guidance, GASB 84, *Fiduciary Activities*. Statement No. 84 established criteria for identifying fiduciary activities and the reporting requirements of said fiduciary activities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedule of the Schedule of Revenues, Expenditures and Changes in Fund Balance – Original and Final Budget and Actual – School Operating Fund, the Schedules of the District's Proportionate Share of the Net Pension/OPEB Liabilities and Assets and Schedules of the District's Contributions, and the Notes to Required Supplementary Information on pages 45-55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management, Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of basic financial statements is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Southeast Island School District's basic financial statements. The information listed in the table of contents as "Additional Supplementary Information", which includes the Schedule of Revenues, expenditures and changes in fund balance – budget to actual for major funds, and the combining and individual non-major fund financial statements; Statement of Fiduciary Net Position; Statement of Changes in Fiduciary Net Position – Student Agency Fund; Schedule of Compliance- AS 14.17.505 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards and Notes to the Schedule of Expenditures of Federal Awards are presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the basic financial statements and Notes to Schedule of State Financial Assistance are presented for purposes of additional analysis and active and *Compliance Supplement for State Single Audits* analysis as required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* and is not a required part of the basic financial statements.

The "Additional Supplementary Information," as listed above, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the "Additional Supplementary Information" is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2021, on our consideration of Southeast Island School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the effectiveness of Southeast Island School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Southeast Island School District's internal control over financial reporting and compliance.

Altman, Rogers & Co.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year Ended June 30, 2021

Net change in fund balances - total governmental funds	\$ 164,171
The change in net position reported for governmental activities in the State of Activities is different because:	
Governmental funds report capital outlays as expenditures. However, on the Statement of Activities, depreciation expense is recognized to allocate	
the cost of these items over their estimated useful lives. This is the amount by which depreciation exceeded capital outlays.	(347,976)
Changes related to certain deferred pension and OPEB activities can increase or decrease net position. This is the change in net position related to changes	
in deferred outflows, deferred inflows, and net pension/OPEB liabilities or assets.	199,800
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. The net changes in long-term liability balance is the	
increase in accrued leave.	(3,130)
Change in net position of governmental activities	\$ 12,865

June 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The financial statements of the Southeast Island School District (hereafter referred to as the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

On July 1, 1976 the Legislature of the State of Alaska established Southeast Island School District (hereafter referred to as the District). At that time assets were turned over to the District by the State of Alaska through direct transfer and use permits. The District has 8 attendance centers. The District is operated under the exclusive oversight management and control of a locally elected five-member School Board. The School Board, pursuant to Alaska Statute Title 29.43.030, has the responsibility of establishing, maintaining, and operating a system of public school for any community within its boundaries that is not provided for by any other public school district. Therefore, the District constitutes an independent local government reporting entity and has no oversight over any other component unit.

B. Government-Wide and Fund Financial Statements

The Government-Wide Financial Statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operations or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*.

Deferred inflows of resources are the acquisition of Fund Balance/Net Position by the District that are applicable to a future reporting period. Deferred outflows of resources are the consumption of Fund Balance/Net Position by the District that are applicable to a future reporting period.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the Government-Wide Financial Statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Notes to Basic Financial Statements, Continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Government-Wide Financial Statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. There are three categories of funds: governmental, proprietary and fiduciary. The district maintains all three of these types of funds.

The District reports the following major governmental funds:

The *School Operating Fund* is the primary operating fund of the School. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *Capital Projects Special Revenue Fund* accounts for all revenue received and expenditures made for the structural repairs for the Thorne Bay K-12 school, the wood fire boiler, school vehicles, teacher housing, and other major repairs and renovations. Revenue is derived primarily from the state.

Additionally, the District reports a Fiduciary Fund and a Proprietary Fund is used to account for Thorne Bay Restaurant on a for-profit basis.

The *Thorne Bay Enterprise Fund* accounts for a student run café in the Thorne Bay School. The café is currently not in operation by the District and is leased out a third party.

The *Student Activity Agency Fund* is custodial in nature and does not present results of operations or have a measurement focus. This fund is used to account for assets that the District holds for students in an agency capacity.

The District follows the Uniform Chart of Accounts for School Districts as required by the State of Alaska, Department of Education and Early Development. This manual sets guidelines for financial reporting and requirements for basic accounting systems, which are uniform throughout Alaska.

Notes to Basic Financial Statements, Continued

Summarized below are the major sources of revenue and the applicable recognition policies.

Intergovernmental Revenue

State of Alaska foundation and pupil transportation revenues, and federal aid for the school lunch program are susceptible to accrual and are recorded in the year to which they relate. State of Alaska and Federal government cost reimbursable grants and contracts are recorded to the extent of allowable expenditures in the period in which the expenditures were incurred. On-behalf payments from the State of Alaska are recognized in the year to which they relate.

Local Revenue

Proceeds from the sale of lunches and other miscellaneous revenues are recognized in the year received.

The District's policy is when available, to utilize restricted revenues before unrestricted revenues.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

Indirect Costs

The State of Alaska, Department of Education and Early Development annually establish an approved indirect rate for each District based on audited financial statements. The rate is based on expenditures recorded per requirements in the Uniform Chart of Accounts for School Districts and as such there is no indirect cost pool. Indirect costs and indirect cost recovery is recorded in the District Administration Support Services function.

D. Assets, Liabilities and Equity

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. There are no statutory limitations on the type of investment allowed. In addition, the District maintains accounts for specific purposes such as the Student Activity accounts.

2. Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the Fund Financial Statements and are eliminated in the preparation of the Government-Wide Financial Statements.

Notes to Basic Financial Statements, Continued

3. Inventories and Prepaid Items

Teaching and maintenance supplies are recorded as expenditures when purchased rather than as consumed. Accounting for inventory of heating fuel and food supplies is on the consumption method. The consumption method records the expenditure when consumed rather than when purchased. Inventories are valued at the lesser of cost or market using the first-in, first-out (FIFO) method. Reported inventories are equally offset by a portion of fund balance classified as nonspendable in the Fund Financial Statements, which indicates they do not constitute "available spendable resources" even though they are a component of net current assets.

Payments made to vendors for services that are applicable to future accounting periods are recorded as prepaid items. Prepaid items in governmental funds are based on the consumption method. The prepaid assets recorded in the governmental fund types do not reflect current available resources, and thus, an equivalent portion of fund balance is classified as nonspendable in the Fund Financial Statements.

4. Capital Assets

Capital assets are recorded in the Government-Wide Financial Statements at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair value at the date of donation. Capital assets are capitalized over \$5,000. Maintenance and operational costs are borne by the District. Capital assets in the Government-Wide Financial Statements are depreciated on the straight-line method over useful life of the asset, generally 5 to 30 years for equipment and vehicles and 15 to 30 years for buildings.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized in the Government-Wide Financial Statements and are considered operations and maintenance costs.

5. Unearned Revenue

Unearned revenue in Special Revenue Funds represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met.

6. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. No liability is reported for unpaid accumulated sick leave. Unused vacation leave is accrued utilizing current salary cost as earned by the employee and recorded as a liability in the government-wide financial statement of net position. No accrued leave liability is recorded in the fund financial statements.

Notes to Basic Financial Statements, Continued

7. Pensions/Other Post Employment Benefit (OPEB) Liability (Asset)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and the Teachers' Retirement System (TRS) and additions to/from PERS and TRS's fiduciary net position have been determined on the same basis as they are reported by PERS and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms, investments are reported at fair value.

8. Net Position

In the Government-Wide Financial Statements, net position is divided into three components:

- Net investment in capital assets consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.
- Restricted net position consists of assets that are restricted by the District's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted all other net position is reported in this category.

9. Fund Balance

In the fund financial statements, fund balance includes five classifications as follows:

Nonspendable fund balance – amounts that are legally or contractually required to be maintained intact (such as the corpus of an endowment fund) or amounts that are not in a spendable form (such as inventory, prepaid items, supplies, and long-term receivables). Such constraint is binding until the legal or contractual requirement is repealed or the amounts become spendable.

Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors and higher levels of government), through constitutional provisions, or by enabling legislation. Such constraint is binding unless modified or rescinded by external body, laws, or regulation.

Committed fund balance – amounts that can be used only for the specific purposes determined by a formal action of the School Board. Commitments may be changed or lifted by the Board taking the same formal action that imposed the constraint originally.

Notes to Basic Financial Statements, Continued

Assigned fund balance – amounts intended to be used by the District for specific purposes: intent can be expressed by the School Board or Superintendent or designee. Such constraint is binding unless modified or eliminated by the Board or Superintendent. In governmental funds other than the School Operating Fund, assigned fund balance represents the amount that is not restricted or committed.

Unassigned fund balance – amounts not contained in the other classifications and available for any purpose. Positive unassigned amounts will be reported only in the School Operating Fund. If another governmental fund, other than the School Operating Fund, has a fund balance deficit, then it will be reported as a negative amount in the unassigned classification in that fund.

The order of spending, regarding the restricted and unrestricted fund balance when an expenditure is incurred for which both restricted and unrestricted fund balance is available should first reduce restricted fund balance and then unrestricted fund balance. The order of spending regarding unrestricted fund balance is that committed amounts should be reduced first, followed by the assigned amounts, and then the unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The District Special Revenue Funds are used to account for educational, food service, operations and maintenance programs that are restricted or committed.

10. Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following financial instruments are recorded at fair value or at amounts that approximate fair value: (1) cash and cash equivalents, (2) receivables, net, (3) certain other current assets, (4) accounts payable, and (5) other current liabilities. The carrying amounts reported in the balance sheet and Statement of Net Position for the above financial instruments closely approximates their fair value due to the short-term nature of these assets and liabilities.

II. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

The District maintains a cash pool that is available for use by all funds. Each fund's portion of this pool is reported on the balance sheet of the fund financial statements as "Cash and cash equivalents" or amounts "Due from/to other funds".

Custodial Credit Risk

Custodial Credit Risk is the risk that in the event of a bank failure, the District's deposits will not be returned to the District.

Any amount in excess of the Federal Depository Insurance (FDIC) with a maximum of \$250,000 is collateralized with securities held by the District's agent in the District's name. All deposits are carried at fair market value plus accrued interest. The School District has a deposit and investment policy.

Notes to Basic Financial Statements, Continued

At June 30, 2021, the District's bank balances totaled \$1,794,739. Deposits in each financial institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. The District's collateralized agreement covers \$1,659,981. As of June 30, 2021, the District's bank balances were fully insured or collateralized.

B. Receivables

Receivables as of June 30, 2021 are as follows:

	Capital	Other	
	Projects	Government	tal
	Funds	Funds	Total
Grants	\$ 72,440	555,586	628,026

Management has determined that all receivables are collectible, therefore no allowance for doubtful accounts has been established.

C. Capital Assets

Capital asset activity for the year ended June 30, 2021 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Assets not being depreciated:				
Land	\$ 941,798	-	-	941,798
Construction in progress	718,936	424,011	(462,648)	680,299
Total assets not being depreciated	1,660,734	424,011	(462,648)	1,622,097
Assets being depreciated:				
Buildings	29,876,501	-	-	29,876,501
Machinery and equipment	2,639,286	182,066	-	2,821,352
Vehicles	654,871	462,648		1,117,519
Total assets being depreciated	33,170,658	644,714	-	33,815,372
Less accumulated depreciation	(18,726,662)	(954,053)		(19,680,715)
Total assets being depreciated, net	14,443,996	(309,339)		14,134,657
Total Government Capital Assets Net				
of Accumulated Depreciation	\$ 16,104,730	114,672	(462,648)	15,756,754
Business-type activities:				
Assets being depreciated - buildings	\$ 63,784	-	-	63,784
Accumulated depreciation	(15,945)	(3,189)		(19,134)
Total Business-type Capital Assets				
Net of Accumulated Depreciation	\$ 47,839	(3,189)		44,650

Notes to Basic Financial Statements, Continued

Equipment of the District is depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Machinery and equipment	5-30
Vehicles	5-30
Building	15-30

Depreciation expense was charged to functions of the District as follows:

Instruction	\$ 167,601
Special education instruction	16,753
Support services students	5,825
School administration	9,040
School administration support services	3,064
District administration	14,563
District administration support services	16,495
Operation and maintenance of plant	618,730
Student activities	4,117
Student transportation – to and from school	89,138
Food services	 8,727
Total depreciation expense per function – governmental	\$ 954,053

D. Interfund Receivables and Payables

Interfund receivables and payables are shown as "Due To Other Funds" and "Due From Other Funds" in each of the individual funds. These balances at June 30, 2021, were as follows:

Receivable Fund	Payable Fund	_	Amount
School Operating Fund	Other Governmental Funds		437,708
School Operating Fund	Thorne Bay Enterprise Fund		207,706
Capital Projects Fund	School Operating Fund		636,040
Other Governmental Funds	School Operating Fund	_	982,102
		\$	2,263,556

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfer Out	Transfer In		Amount
School Operating Fund	Other Governmental Funds	\$	87,908
Other Governmental Funds	Capital Projects Fund	_	20,974
Total		\$_	108,882

Transfers are used to (a) use unrestricted revenues collected in the School Operating Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations or (b) use unrestricted revenues collected in the School Operating Fund to meet local match requirements on State and Federal grants.

Notes to Basic Financial Statements, Continued

E. Long-term Obligations

Accrued leave of governmental activities are also accounted for by the School District. Leave is generally liquidated by the General Fund. Changes in these obligations for the year ended June 30, 2021 are as follows

	Balance		Balance	Due within
	July 1, 2020	Change	June 30, 2021	One Year
Accrued Leave	\$ 7,354	3,130	10,484	10,484

F. Fund Balances

Fund balances, reported for the major funds and nonmajor funds in the aggregate on the governmental funds balance sheet are subject to the following constraints:

	School Operating	Capital Projects	Nonmajor	-
	Fund	Fund	Funds	Totals
Nonspendable –				
Inventory	\$ 69,551		8,690	78,241
Assigned:				
Food service	-	-	87,371	87,371
Pupil transportation	-	-	453,525	453,525
THRIVE program	-	-	2,130	2,130
Teacher housing	-	-	265,626	265,626
RurAL Cap program	-	-	2,934	2,934
Maintenance of buildings		335,166	-	335,166
Total assigned		335,166	811,586	1,146,752
Unassigned	601,496			601,496
Total Fund Balances	\$ 671,047	335,166	820,276	1,826,489

III. OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to worker's compensation, torts, theft of, damage to, and destruction of assets, errors and omissions, and natural disasters. The District mitigates significant risk of loss through the acquisition of commercial insurance policies. With the exception of fire, earthquake and flood insurance the deductibles are minimal. There were no outstanding claims or liabilities at the end of the current period. The District's employee health costs are covered through commercial insurance policies.

The District has elected the reimbursable method of accounting for Employment Security Compensation (ESC). Under this method, the actual costs of ESC are reimbursed to the State of Alaska, Department of Labor. The District records the liability for the accrued unpaid portion of these claims.

Notes to Basic Financial Statements, Continued

B. Contingent Liabilities

Amounts received or receivable from grant or agencies are subject to audit and adjustment by the grantor agencies, principally the federal and State governments. Any disallowed claims, including amounts already collected, may constitute a liability of the School Operating Fund. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

The District's current share of unfunded OPEB liabilities related to TRS between measurement dates created an OPEB benefit as a result of the decrease to the estimated liability. Due to the change, The District's proportionate share of pension plan expenses is negative for the year. Per GASB 75, the negative proportionate share has been allocated to operating grants and contributions for support services-instruction, school administration, school administration support services, and district administration to report negative program revenues.

C. Employee Retirement Systems and Plans

The District follows Governmental Accounting Standards Board (GASB) Codification P20, Accounting for Pensions by State and Local Governmental Employees and GASB Codification P50, Accounting and Financial Reporting by Employers for Post-employment Benefits Other than Pensions. GASB Codification P20 and GASB Codification P50 establish uniform standards for the measurement, recognition, and display of pension and other post-employment benefits other than pensions (healthcare) expenditures/expense and related liabilities, assets, note disclosure and applicable required supplementary information in the financial reports of state and local governmental employers.

All full-time employees and certain permanent part-time employees of the District participate in either the State of Alaska Public Employees' Retirement System (PERS) or the State of Alaska Teachers' Retirement System (TRS). In addition to the pension plan both systems also administer other post-employment benefit (OPEB) plans.

The system is governed by the Alaska Retirement Management Board. The benefit and contribution provisions are established by State law and may be amended only by the State legislature. The Administrator of the Plan is the Commissioner of Administration or the Commissioner's designee.

Summary of Significant Accounting Policies. The financial statements for PERS and TRS are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The District's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair value.

Notes to Basic Financial Statements, Continued

PERS and TRS act as the common investment and administrative agencies for the following multiple-employer plans:

Plan Name	Type of Plan			
Defined Benefit Pension Plan (DB)	Cost-sharing, Defined Benefit Pension			
Defined Contribution Pension Plan (DC)	Defined Contribution Pension			
Defined Benefit Other Postemployment				
Benefits (OPEB):				
Occupational Death and Disability Plan	Defined Benefit OPEB			
Alaska Retiree Healthcare Trust Plan	Defined Benefit OPEB			
Retiree Medical Plan	Defined Benefit OPEB			
Defined Contribution Other Postemployment				
Benefits (DC):				
Healthcare Reimbursement Arrangement Plan	Cost-sharing, Defined Contribution OPEB			

Other Postemployment Benefit Plans (OPEB)

Occupational Death and Disability Plan (ODD)

The Occupational Death and Disability Plan provides death benefits for beneficiaries of plan participants and long-term disability benefits to all active members within the System. For the year ended June 30, 2021 the employer contribution rate is 0.31% for PERS and 0.08% for TRS.

Membership in the plan consisted of the following at June 30, 2020 (latest available report):

Membership	PERS	TRS
Active plan members	23,378	5,569
Participating employers	152	57

Alaska Retiree Healthcare Trust Plan (ARHCT)

Beginning July 1, 2007, the Alaska Retiree Healthcare Trust Plan (ARHCT), a Healthcare Trust Fund of the State, was established. The ARHCT is self-funded and provides major medical coverage to retirees of the System. The System retains the risk of loss of allowable claims for eligible members. The ARHCT began paying member healthcare claims on March 1, 2008. Prior to that, healthcare claims were paid for by the Retiree Health Fund (RHF). For the year ended June 30, 2020 (latest available information) employer contributions were 4.88% for PERS and 4.53% for TRS of annual payroll. Membership in the plan consisted of the following at June 30, 2020 (latest report available):

Membership	PERS	TRS
Inactive plan members or beneficiaries currently receiving benefits	36,140	13,053
Inactive plan members entitled to but not yet receiving benefits	7,208	774
Inactive plan members not entitled to benefits	10,575	1,745
Active plan members	11,162	3,812
Total plan membership	65,085	19,384

Notes to Basic Financial Statements, Continued

Retiree Medical Plan (RMP)

The retiree medical plan provides major medical coverage to retirees of the DC plan. The plan is self-insured. Members are not eligible to use this plan until they have at least 10 years of service and are Medicare age eligible. For the year ended June 30, 2021 employer contributions were 1.27% for PERS and 0.93% for TRS. Membership in the plan consists of the following at June 30, 2020 (latest available report):

Membership	PERS	TRS
Inactive plan members or beneficiaries currently receiving benefits	46	17
Inactive plan members entitled to but not yet receiving benefits	1,717	782
Inactive plan members not entitled to benefits	14,643	2,757
Active plan members	23,378	5,569
Total plan membership	39,784	9,125

Healthcare Reimbursement Arrangement Plan

The Healthcare Reimbursement Arrangement Plan was established to allow medical expenses to be reimbursed from individual savings accounts established for eligible participants. Employer contributions are 3% of the average annual compensation of all employees in the PERS and TRS plans. Membership in the plan consists of the following at June 30, 2020 (latest available report):

Membership	PERS	TRS
Inactive plan members or beneficiaries currently receiving benefits	63	19
Inactive plan members entitled to but not yet receiving benefits	1,717	782
Inactive plan members not entitled to benefits	14,643	2,757
Active plan members	23,378	5,569
Total plan membership	39,801	9,127

Investments

The Board is the investment oversight authority of the system's investments. As the fiduciary, the Board has the statutory authority to invest the assets under the Prudent Investor Rule. Fiduciary responsibility for the Board's invested assets is pursuant to AS 37.10.210.390.

State of Alaska Department of Treasury provides staff for the Board. Treasury has created a pooled environment by which it manages investments of the Board. Additionally, Treasury manages a mix of Pooled Investment Funds and Collective Investment Funds for the DC Participant-directed Pension plans under the Board's fiduciary responsibility.

Rate of Return

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return, net of investment expense, for the year ended June 30, 2020 (latest available report) for the DB Pension Plan for PERS and TRS is 4.03% and 4.01%, for the ARHCT plan is 4.16% and 4.16%, for the ODD Plan is 4.28% and 4.22%, and for the RMP is 4.33% and 4.26%, respectively.

Notes to Basic Financial Statements, Continued

For additional information on securities lending, interest rates, credit risks, foreign exchange, derivatives, fair value, and counterparty credit risks, see the separately issued report on the Invested Assets of the State of Alaska Retirement and Benefits Plans at:

```
http://treasury.dor.alaska.gov/armb/Reports-and-Policies/Annual-
Audited-Financial-Schedules.aspx.
```

The long-term expected rate of return on pension and OPEB plan investments was determined using the building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. The best estimates of arithmetic real rates of return for each major asset class are summarized below for the PERS and TRS plans:

	Long-Term Expected
Asset Class	Real Rate of Return
Broad Domestic Equity	6.24%
Global Equity (non-U.S.)	6.67%
Aggregate bonds	(0.16)%
Opportunistic	3.01%
Real Assets	3.82%
Private Equity	10.00%
Cash Equivalents	(1.09)%

Discount Rate: The discount rate used to measure the total pension and OPEB liabilities and assets is 7.38%, which represents a decrease of 0.00% since the prior measurement period. The projection of the cash flows used to determine the discount rate assumes that Employer and State contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the net pension and OPEB plans fiduciary net pension and OPEB liabilities and assets were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension and OPEB plan investments were applied to all periods of projected benefit payments to determine the total pension and OPEB liabilities and assets. In the event benefit payments are not covered by the plan's fiduciary net position, a municipal bond rate would be used to discount the benefits not covered by the plan's fiduciary net position. The S&P Municipal Bond 20-Year High Grade Index rate was 2.66% as of June 30, 2020.

Employer and Other Contribution Rates. There are several contribution rates associated with the pension and healthcare contributions and related liabilities and assets. These amounts are calculated on an annual basis.

Employer Effective Rate: This is the actual employer pay-in rate. Under current legislation, this rate is statutorily capped at 22% for PERS and 12.56% for TRS of eligible wages, subject to the salary floor, and other termination costs as described below. This rate is calculated on all PERS or TRS participating wages, including those wages attributable to employees in the defined benefit plan.

Notes to Basic Financial Statements, Continued

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined and used to calculate annual Plan funding requirements, without regard to the statutory rate cap or the GASB accounting rate. Prior to July 1, 2015, there were no constraints or restrictions on the actuarial cost method or other assumptions used in the ARM Board valuation. Effective July 1, 2015, the Legislature requires the ARM Board to adopt employer contribution rates for past service liabilities using a level percent of pay method over a closed 25 year term which ends in 2039. This will result in lower ARM Board Rates in future years.

On-behalf Contribution Rate: This is the rate paid in by the State as an on-behalf payment as mandated under current statute. Under state law, subject to annual appropriation, the state will contribute an on-behalf payment into the plan in an amount equal to the difference between the ARM Board Rate and the Employer Effective Rate. On-behalf contribution amounts have been recognized in these financial statements as both revenue and expenditures.

GASB Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes. Certain actuarial methods and assumptions for this rate calculation are mandated by the *Governmental Accounting Standards Board* (GASB). Medicare Part D subsidies are not reflected in this rate. The rate uses a 7.38% discount rate.

		ARM	
	Employer	Board	State
	Effective	Adopted	Contribution
	Rate	Rate	Rate
PERS:			
Pension	14.57%	26.58%	8.85%
OPEB	7.43%	4.27%	0%
Total PERS contribution rates	22.00%	30.85%	8.85%
TRS:			
Pension	5.65%	27.07%	17.91%
OPEB	6.91%	3.40%	0%
Total TRS contribution rates	12.56%	30.47%	17.91%

Employer Contribution rates for PERS and TRS for the year ended June 30, 2020 are as follows:

Termination Costs: If the District decides to terminate coverage for a department, group, or other classification of members, even if that termination results from the decision to divest of a particular District function, all affected employees in that department, group, or other classification of members become immediately vested in the plan. The District must pay to have a termination study completed. The purpose of the study is to calculate the District's one-time termination costs. The costs represent the amount necessary to fully fund the costs of plan members who become vested through this process and for other changes in actuarial assumptions, such as, earlier than expected retirement, that arise from the act of termination of coverage. The District must pay a lump sum within 60 days of termination or arrange a payment plan that is acceptable to the PERS or TRS Administrator. For fiscal year 2021 the past service rate for PERS is 18.23%.

Notes to Basic Financial Statements, Continued

Actuarial Assumptions: The total pension and OPEB liabilities on June 30, 2020 (latest available) were determined by an actuarial valuation as of June 30, 2019 which was rolled forward to the measurement date June 30, 2020. These actuarial assumptions were based on the results of an actuarial experience study for the period from July 1, 2013 to June 30, 2017:

Investment return / discount rate	7.38% per year (geometric), compounded annually, net of expenses
Salary scale	Inflation – 2.5% per year Productivity – 0.25% per year
Payroll growth	2.75% per year (inflation + productivity)
Total inflation	Total inflation as measured by the Consumer Price Index for urban and clerical workers from Anchorage is assumed to increase 2.5% annually.
PERS Mortality (Pre-termination)	Based upon 2013-2017 actual mortality experience, 100% (male and female) of RP- 2014 healthy annuitant table with MP-2017 generational improvement.
TRS Mortality (Pre-termination)	Based upon 2013-2017 actual mortality experience, RP-2014 white-collar employee table with MP-2017 generational improvement.
PERS Mortality (Post-termination)	Mortality rates based upon the 2013-2017 actual experience. 91% of male and 96% of female rates of RP-2014 health annuitant table with MP-2017 generational improvement.
TRS Mortality (Post-termination)	Mortality rates based upon the 2013-2017 actual experience. 93% of male and 90% of female rates of RP-2014 white-collar healthy annuitant table with MP-2017 generational improvement.
Total turnover	Based upon the 2013-2017 actual withdrawal experience.
PERS Disability	Incidence rates based on 2013-2017 actual experience. Post-disability mortality in accordance with the RP-2014 disability table with MP-2017 generational improvement. Disabilities are assumed to be occupational 75% of the time for peace officers/firefighters, 40% of the time for others.

Notes to Basic Financial Statements, Continued

TRS Disability	Incidence rates based on 2013-2017 actual experience. Disabilities are assumed to be occupational 15% of the time. Post-disability mortality in accordance with the RP-2014 disabled table with MP-2017 generational improvement.
Retirement	Retirement rates based upon the 2013-2017 actual experience. Deferred vested members are assumed to retire at their earliest unreduced retirement date.
PERS Marriage and age difference	Males are assumed to be three years older than their wives. Females are assumed to be two years younger than their husbands. For others, 75% of male members and 70% of female members are assumed to be married. For peace officers/firefighters, 85% of male members and 60% female members are assumed to be married.
TRS Marriage and age difference	Males are assumed to be three years older than their wives. Females are assumed to be two years younger than their husbands. 85% of male members and 75% of female members are assumed to be married at termination from active service.
Healthcare cost trend rates (ARHCT Plan and RMP)	Pre-65 medical: 7.5% grading down to 4.5% Post-65 medical: 5.5% grading down to 4.5% Prescription drugs: 8.5% grading down to 4.5% EGWP: 8.5% grading down to 4.5%.

As a result of the latest experience study, the Board adopted updated actuarial assumptions for the June 30, 2018 actuarial valuation to better reflect expected future experience. In addition to the changes in assumptions resulting from the experience study, the following assumption changes related to the ARHCT plan have been made since the prior valuation:

- 1. Per capita claims costs were updated to reflect recent experience.
- 2. Normal cost for administrative expenses were updated to reflect recent experience.
- 3. Healthcare cost trends were updated to reflect a Cadillac Tax load.

The changes of assumptions from the latest experience study created substantial deferred outflows of resources attributable to the District, as well as an OPEB benefit recognized by the District for the State's proportionate share of OPEB plan expense attributable to the District. In some instances the reduction of revenues and expenses reported for the State's proportionate share of OPEB plan expenses and expenses reported for the State's proportionate share of OPEB plan expense attributable to the District creates a net negative Pension/OPEB expense (net pension/OPEB benefit) which results in negative operating grants and contributions for certain functions reported on the Statement of Activities.

Notes to Basic Financial Statements, Continued

Alaska Public Employee Retirement System (PERS) – Defined Benefit Plan (DB)

Plan Description. The District participates in the Alaska Public Employees' Retirement System (PERS), a cost sharing multiple employer defined benefit pension plan. PERS provides retirement benefits, disability and death benefits, and post-employment healthcare to plan members and beneficiaries. The Plan was established and is administered by the State of Alaska, Department of Administration. The Public Employee's Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for PERS. This report may be obtained from the system at Pouch C, Juneau, Alaska 99811 or online at: http://doa.alaska.gov/drb/pers.

Pension Benefits. All tier employee benefits vest with five years of credited service. There are three tiers of employees based on entry date. Tier I employees enrolled prior to July 1, 1986, with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age 55 or early retirement age 50. For Tier II and III employees enrolled after June 30, 1986, but before July 1, 2006, the normal and early retirement ages are 60 and 55, respectively. All tier employees with 30 or more years of credited service may retire at any age and receive a normal benefit.

The PERS defined benefit is closed to new hires enrolled on or after July 1, 2006. New hires after this date participate in the PERS defined contribution plan (DC) described later in these notes.

Currently there are 151 employers participating in PERS defined benefit plan, including the State of Alaska and 150 political subdivisions and public organizations.

The DB Plan's membership consisted of the following at June 30, 2020 (latest available report):

Inactive plan members or beneficiaries currently receiving benefits	36,140
Inactive plan members entitled to but not receiving benefits	7,208
Inactive members not entitled to benefits	10,575
Active plan members	<u>11,162</u>
Total DB plan membership	<u>65,085</u>

Retirement benefits are calculated by multiplying the average monthly compensation (AMC) times credited PERS service times the percentage multiplier. The AMC is determined by averaging the salaries earned during the five highest (three highest for peace officers/firefighters members or members hired prior to July 1, 1996) consecutive payroll years. Members must earn at least 115 days of credit in the last year worked to include it in the AMC calculation. The PERS pays a minimum benefit of \$25 per month for each year of service when the calculated benefit is less.

The percentage multipliers for peace officers/firefighters are 2% for the first ten years of service and 2.5% for all service over 10 years. The percentage multipliers for all other participants are 2% for the first ten years, 2.25% for the next ten years, and 2.5% for all remaining service earned on or after July 1, 1986. All service before that date is calculated at 2%.

Post-employment healthcare benefits are provided without cost to all members first enrolled before July 1, 1986. Members first enrolled after June 30, 1986, but before July 1, 2006, and who have not reached age 60 may elect to pay for major medical benefits.

Notes to Basic Financial Statements, Continued

Post Retirement Pension Adjustments. Post retirement pension adjustments (PRPAs) are granted annually to eligible benefit recipients when the consumer price index (CPI) increases during the preceding calendar year. PRPAs are calculated by multiplying the recipient's base benefit, including past PRPAs, times:

- (a) 75% of the CPI increase in the preceding calendar year or 9%, whichever is less, if the recipient is at least 65 or on PERS disability; or
- (b) 50% of the CPI increase in the preceding calendar year or 6%, whichever is less, if the recipient is at least 60, or has been receiving benefits for at least five years.

Ad hoc PRPAs, up to a maximum of 4%, may be granted to eligible recipients who first entered the PERS before July 1, 1986, if the CPI increases and the financial condition of the fund will permit an increase. In a year where an ad hoc PRPA is granted, eligible recipients will receive the higher of the two calculations.

Funding Policy. In April 2008 the Alaska Legislature passed legislation which statutorily capped the employer contribution, established a state funded "on-behalf" contribution, and required that employer contributions be calculated against all PERS eligible wages, including wages paid to participants of the PERS Tier IV defined contribution plan (DC) described later in these footnotes. The state legislature capped the rate at 22%, with the State contributing an on-behalf payment for the difference between the actuarial contribution and the cap.

Salary Floor. During the 25th legislation session, Senate Bill 125 passed, which established a June 30, 2008 salary floor under AS 39.35.255(a)(2). The salary floor is the total base salaries paid by an employer to active employees of the system as of the fiscal year ending June 30, 2008. The statute requires the Division of Retirement and Benefits (Division) to collect employer contributions at a minimum based on FY 2008 base salaries.

Employee Contribution Rate. The District PERS active members are required to contribute 6.75% and if elected to be calculated under TRS, non-teacher school district employees are required to contribute 9.60% of their annual covered salary.

Employer contributions for the year ended June 30, 2021, were:

Pensions	Other Post-Employment	
(DB)	Benefits (DB)	Total
\$ 87,464	20,509	107,973

Public Employees Retirement Plans

For the year ended June 30, 2021 the State of Alaska contributed \$69,258 (100% pension cost) on-behalf of the District, which has been recorded in the fund financial statements under the modified-accrual basis of accounting. In the government-wide financial statements the on-behalf contribution has been adjusted as of the measurement date June 30, 2020 to a total of \$77,693, to represent the pension/OPEB expense attributable to the State under the full accrual basis of accounting.

Notes to Basic Financial Statements, Continued

Pension and OPEB Liabilities and Assets, Pension and OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions and OPEB: At June 30, 2021, the District reported liabilities and assets that reflected a reduction for State pension and OPEB support provided to the District. The amount recognized by the District as its proportionate share of net pension and OPEB liabilities (assets), the related State support, and the total portion of the net pension and OPEB liabilities (assets) that were associated with the District were as follows:

Defined Benefit:		Pension
District's proportionate share of the net pension liability	\$	2,352,318
State's proportionate share of the net pension liability		971,866
Total	\$	3,324,184
		OPEB
District's proportionate share of the ARHCT OPEB liability (asset)	\$	(179,768)
State's proportionate share of the ARHCT OPEB liability (asset)	_	(74,435)
Total	\$	(254,203)
	_	
District's proportionate share of the ODD OPEB liability (asset)	\$	(12,705)
	_	
District's proportionate share of the RMP OPEB liability	\$	4,126
	_	
Total District's share of net pension and OPEB liabilities and		
assets	\$	2,163,971

The net pension and OPEB liabilities and assets were measured as of June 30, 2020, and the total pension and OPEB liabilities used to calculate the net pension and OPEB liabilities and assets were determined by an actuarial valuation as of that date. The District's proportion of the net pension and OPEB liabilities were based on the present value of contributions for FY2022 through FY2039, as determined by projections based on the June 30, 2020 valuation.

The District's proportionate share and changes in the pension and OPEB liabilities and assets were as follows:

	June 30, 2019	June 30, 2020	
	Measurement	Measurement	Change
Pension	.0333%	.0399%	.0066%
OPEB:			
ARHCT	.0332%	.0397%	.0065%
ODD	.0538%	.0466%	(.0072%)
RMP	.0676%	.0582%	(.0094%)
ARHCT ODD	.0538%	.0466%	(.0072%)

Notes to Basic Financial Statements, Continued

Based on the measurement date of June 30, 2020, the District recognized pension and OPEB expense of \$657,712 and (\$157,086), respectively, for the year ended June 30, 2021. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

	Pension

\$87,464 and \$20,509 are reported as deferred outflows of resources related to pension and OPEB resulting from District contributions subsequent to the measurement date and will be recognized as a reduction of the net pension and OPEB liabilities or an increase of the net pension and OPEB assets in the year ended June 30, 2021, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension and OPEB will be recognized in pension and OPEB expense as follows:

Year Ended			OPEB	OPEB	OPEB
June 30,	_	Pension	ARHCT	ODD	RMP
2021	\$	67,251	(141,372)	(558)	(484)
2022		33,669	25,673	(454)	(115)

Alaska Public Employee Retirement System (PERS) – Defined Contribution Plan (DC)

Plan Description and Funding Requirements. School Districts and Public Employers in the State of Alaska have a defined contribution retirement plan (PERS Tier IV) for new hires first enrolled on or after July 1, 2006. This Plan is administered by the State of Alaska, Department of Administration in conjunction with the defined benefit plan noted above. The Administrator of the Plan is the Commissioner of Administration or the Commissioner's designee. Plan members make mandatory contributions of 8% of gross eligible compensation. This amount goes directly to the individual's account. State statutes require the employer to contribute 5% of employees' eligible compensation. Additionally, employers are required to contribute to OPEB (DB): 1.27% for the retiree medical plan (DB), 0.31% for occupational and death and disability benefits (DB) and 3% of employers' average annual employee compensation to the health reimbursement arrangement (HRA DC). The effective employer contribution is 22%. Additionally, there is a defined benefit unfunded liability (DBUL) amount levied against the DC plan and allocated to the DB Plan's pension and OPEB contribution.

Plan members are 100% vested with their contributions.

Members become vested in employers' contributions as follows:

2 years of service - 25%
3 years of service - 50%
4 years of service - 75%
5 years of service - 100%

The School District contributed \$69,556 for the year ended June 30, 2021, which included forfeitures of \$27,495 which have been applied against contributions.

Notes to Basic Financial Statements, Continued

Teachers Retirement System (TRS) – Defined Benefit Plan (DB)

Plan Description. The School District participates in the Teacher's Retirement System (TRS), a cost sharing multiple-employer defined benefit plan. Currently, there are 57 employers participating in TRS, including 53 school districts. TRS provides retirement benefits, disability and death benefits, and post-employment healthcare to plan members and beneficiaries. The system is governed by the Alaska Retirement Board. The Administrator of the Plan is the Commissioner of Administration or the Commissioner's designee. The benefit and contribution provisions are established by State law and may be amended only by the State legislature. The Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for TRS. This report may be obtained from the system at Pouch C, Juneau, Alaska 99811 or online at http://doa.alaska.gov/drb/trs.

The DB Plan's membership consisted of the following at June 30, 2020 (latest available report):

Inactive plan members or beneficiaries currently receiving benefits	13,053
Inactive plan members entitled to but not receiving benefits	774
Inactive plan members not entitled to benefits	1,745
Active plan members	<u>3,812</u>
Total DB plan membership	<u>19,384</u>

Pension Benefits. Employees hired prior to July 1, 1990, are entitled to annual pension benefits beginning at normal retirement age 55, or early retirement age 50. For employees hired after June 30, 1990 but before July 1, 2006, the normal and early retirement ages are 60 and 55, respectively. Employees may also retire at any age and receive a normal benefit when they accumulate the required credited service. The benefit related to all years of credited service prior to July 1, 1990 and for years of service through a total of 20 years is equal to 2% of their highest three-year average annual compensation for each year of service. The benefit for each year over 20 years of service subsequent to June 30, 1990, is equal to 2.5% of their highest three-year average annual compensation for each year of service. Employees may elect to receive their pension benefits in the form of a joint or survivor annuity. Effective January 1, 1987, a married member who retires must receive his or her benefit in the form of a joint and survivor annuity unless the member's spouse consents to another form of benefit.

Minimum benefits for employees eligible for retirement are \$25 per month for each year of credited service.

Post Retirement Pension Adjustments. Effective in fiscal year 1991, automatic post retirement pension adjustment (PRPA) was granted to all current and future retirees.

The PRPA amount may not exceed the lesser of (a) the actual cost of living increase (percentage) from the date of retirement until the effective date of the PRPA; or (b) 4.00% of the base benefits for each full year that the member has been retired and a prorated percentage for each partial year. However, the PRPA percentage is offset by the percentage of all prior PRPAs that have been granted. TRS members receiving a retirement, disability or survivor benefit, who remain in Alaska, are eligible for an additional allowance equal to 10.00% of the base benefit.

Employee Contribution Rate. The District's active TRS members are required to contribute 8.65% of their annual covered salary.

Notes to Basic Financial Statements, Continued

Employer contributions for the year ended June 30, 2021, were:

Pensions	Other Post-Employment	
(DB)	Benefits (DB)	Total
\$ 44,107	37,473	81,580

Teachers Retirement Plans

For the year ended June 30, 2021 the State of Alaska contributed \$294,143 (100% pension cost) on-behalf of the District, which has been recorded in the fund financial statements under the modified-accrual basis of accounting. In the government-wide financial statements the on-behalf contribution has been adjusted as of the measurement date to a total of (\$39,852), to represent the pension/OPEB expense attributable to the State under the full accrual basis of accounting.

Pension and OPEB Liabilities and Assets, Pension and OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions and OPEB: At June 30, 2021, the District reported liabilities and assets that reflected a reduction for State pension and OPEB support provided to the District. The amount recognized by the District as its proportionate share of net pension and OPEB liabilities (assets), the related State support, and the total portion of the net pension and OPEB liabilities (assets) that was associated with the District were as follows:

		Pension
Defined Benefit:		
District's proportionate share of the net pension liability	\$	1,306,179
State's proportionate share of the net pension liability		2,266,313
Total	\$	3,572,492
		OPEB
District's proportionate share of the ARHCT OPEB liability (asset)	\$	(229,621)
State's proportionate share of the ARHCT OPEB liability (asset)		(399,340)
Total	\$	(628,961)
District's proportionate share of the ODD OPEB liability (asset)	\$	(15,589)
District's proportionate share of the RMP OPEB liability (asset)	\$	(35,841)
	_	
Total District's share of net pension and OPEB liabilities and		
assets	\$	1,025,128

The net pension and OPEB liabilities and assets were measured as of June 30, 2020 and the total pension and OPEB liabilities used to calculate the net pension and OPEB liabilities and assets were determined by an actuarial valuation as of that date. The District's proportion of the net pension and OPEB liabilities and assets were based on the present value of contributions for FY2022 through FY2039, as determined by projections based on the June 30, 2020 valuation.

Notes to Basic Financial Statements, Continued

The District's proportionate share and changes in the pension and OPEB liabilities and assets were as follows:

	June 30, 2019 Measurement	June 30, 2020 Measurement	Change
Pension	.0937%	.0643%	(.0294)%
OPEB:			
ARHCT	.0935%	.0642%	(.0293)%
ODD	.3126%	.3621%	.0495%
RMP	.3123%	.3633%	.0510%

Based on the measurement date of June 30, 2020, the District recognized pension expense of (\$141,238) and OPEB expense of (\$331,798), respectively, for the year ended June 30, 2021. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

	Pensions

Thereafter				 (786)		(7,893)
Total	\$	(85,242)	(19,305)	 (1,711)	-	(16,540)

Notes to Basic Financial Statements, Continued

For the year ended June 30, 2021, the District recognized \$(458,568) and \$68,638 of pension and OPEB amortization of the deferred outflows and inflows of resources, respectively.

Sensitivity of the Net Pension and OPEB Liabilities and Assets to Changes in the Discount Rate: The following presents the net pension and OPEB liabilities (assets) of the Plan calculated using the discount rate of 7.38%, as well as what the Plans' net pension and OPEB liabilities would be if they were calculated using a discount rate that is 1-percentage-point lower (6.38%) or 1percentage-point higher (8.38%) than the current rate:

	1% Decrease (6.38%)	Current Rate (7.38%)	1% Increase (8.38%)
Net pension liability	\$ 1,832,977	1,306,179	863,142
Net OPEB ARHCT liability (asset)	\$ (12,659)	(229,621)	(408,566)
Net OPEB ODD liability (asset)	\$ (15,614)	(15,589)	(15,582)
Net OPEB RMP liability (asset)	\$ 1,933	(35,841)	(64,088)

Sensitivity of the District's proportionate share of the net OPEB liability and asset to changes in the healthcare cost trend rates. The following present the District's proportionate share of the net OPEB liability and asset, as well as what the District's proportionate share of the net OPEB liability and asset would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1% Decrease	Current Rate	1% Increase
Net OPEB ARHCT liability (asset)	\$ (428,481)	(229,621)	12,260
Net OPEB RMP liability (asset)	\$ (67,990)	(35,841)	8,396

Teachers Retirement System (TRS) – Defined Contribution Plan (DC)

Plan Description and Funding Requirements. School Districts and Public Employers in the State of Alaska have a defined contribution retirement plan for new hires first enrolled on or after July 1, 2006. The Administrator of the Plan is the Commissioner of Administration or the Commissioner's designee. Plan members make mandatory contributions of 8% of gross eligible compensation. State statutes require the employer to contribute 7% of employees' eligible compensation. Additionally, employers are required to contribute to other post-employment benefits (DB): 1.09% for the retiree medical plan, 0.08% for occupational death and disability, and 3% of employers' average annual employee compensation to the health reimbursement arrangement (HRA DC). The employer effective contribution rate is 12.56%. Plan members are 100% vested with their contributions. Additionally, there is a defined benefit unfunded liability (DBUL) amount levied against the DC plan and allocated to the DB Plan's pension and OPEB contribution.

Plan members are 100% vested with their contributions.

Members become vested in employers' contributions as follows:

2 years of service - 25%
3 years of service - 50%
4 years of service - 75%
5 years of service - 100%

Notes to Basic Financial Statements, Continued

The School District contributed \$138,540 for the year ended June 30, 2021, which included forfeitures of \$13,090 which have been applied against contributions.

D. Change in Accounting Principle

In 2021, the District adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, which established criteria for identifying fiduciary activities of the District and reporting of said fiduciary activities.

As a result of adopting this standard, the amount previously reported as due to student groups was reclassified to beginning fiduciary net position. The previously reported due to student groups liability of the Student Activities Agency Fund of \$150,670 at June 30, 2020 has been restated as beginning fiduciary net position to align with the new principle.

E. Subsequent Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates covering several topics as follows:

- GASB 87 *Leases.* Effective for fiscal years beginning after June 15, 2021.
- GASB 89 Accounting for Interest Cost Incurred before the End of a Construction Period. Effective for fiscal years beginning after December 15, 2020.
- GASB 92 *Omnibus 2020.* This Statement has multiple effective dates which vary by topic.
- GASB 93 *Replacement of Interbank Offered Rates.* Effective for fiscal years beginning after June 15, 2021.
- GASB 94 *Public-Private and Public-Public Partnerships and Availability Payments Arrangements.* Effective for fiscal years beginning after June 15, 2022.
- GASB 95 *Postponement of the Effective Dates of Certain Authoritative Guidance.* Effective immediately.
- GASB 96 *Subscription-Based Information Technology Arrangements.* Effective for fiscal years beginning after June 15, 2022.
- GASB 97 Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. Effective for fiscal years beginning after June 15, 2021.

Statement 94 is not expected to have any significant impact on the financial statements of the District.

Notes to Basic Financial Statements, Continued

GASB Statement No. 87, the objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 89 requires interest costs incurred before the end of a construction period to be recognized as an expenditure or expense in the period in which the cost is incurred for financial statements prepared under the current financial resources measurement focus or the economic resource measurement focus.

GASB Statement No. 92, the objectives of this Statement are to enhance comparability and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements.

GASB Statement No. 93, addresses the fact that some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR)—most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate.

GASB Statement No. 95 provides temporary relief to governments in light of the COVID-19 pandemic. The effective dates of the following pronouncement are postponed by one year: GASB Statements No. 83, No.84, No. 88, No. 89, No. 90, No. 91, No. 92, and No. 93. The effective date for GASB 87 has been postponed by 18 months.

GASB Statement No. 96 will improve financial reporting by establishing a definition for Subscription-based information technology arrangements (SBITAs) and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. That definition and uniform guidance will result in greater consistency in practice. Establishing the capitalization criteria for implementation costs also will reduce diversity and improve comparability in financial reporting by governments. This Statement also will enhance the relevance and reliability of a government's financial statements by requiring a government to report a subscription asset and subscription liability for a SBITA and to disclose essential information about the arrangement. The disclosures will allow users to understand the scale and important aspects of a government's SBITA activities and evaluate a government's obligations and assets resulting from SBITAs.

Notes to Basic Financial Statements, Continued

GASB Statement No. 97 will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The requirements also will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans.

SOUTHEAST ISLAND SCHOOL DISTRICT, ALASKA

Notes to Required Supplementary Information

June 30, 2021

1. General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance

Budgets and Budgetary Accounting

Budgets are adopted on a basis consistent with generally accepted accounting principles. The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. Annual budgets for operation are adopted by the School Board for all operating revenues, expenditures, and interfund transfers. Budgets are prepared and presented on the modified accrual basis of accounting.
- 2. The adopted School Operating Fund budget is submitted to the State of Alaska, Department of Education and Early Development for review to determine compliance with Alaska statutes and Department regulations.
- 3. The School Board authorizes formal budget revisions several times each year to adjust the revenues and expenditures to available resources and program needs. The originally adopted budget and the final revised and approved budget are presented in these financial statements. Expenditure authority for the School Operating Fund is limited to the total approved budget and functional areas of expenditures are not to be overspent. Annual appropriations for the School Operating Fund lapse at fiscal year end.
- 4. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the School Operating Fund. The amount of encumbrances, if significant, is disclosed in the notes to the Basic Financial Statements as commitments. As of June 30, 2021, the District did not have any encumbrances.

Excess of Expenditures over Appropriations

For the year ended June 30, 2021, expenditures exceeded appropriations in the following funds:

School Operating Fund:	
Instruction	\$ (6,821)
Special education support services - students	(38,068)
Other Governmental Funds:	
Opioid Response Planning Special Revenue Fund	(2,908)
Select – Klawock Special Revenue Fund	(2,190)
Teacher Housing Special Revenue Fund	(11,890)

2. Public Employees' Retirement System

Schedule of District's Proportionate Share of Net Pension and OPEB Liability (Asset)

The table is presented based on the Plan measurement date which is one year prior to fiscal year end for all years presented.

Changes in Methods Since the Prior Valuation – June 30, 2019 to June 30, 2020:

There were no changes in actuarial methods since the prior valuation.

SOUTHEAST ISLAND SCHOOL DISTRICT, ALASKA

Notes to Required Supplementary Information, Continued

Changes in Assumptions Since the Prior Valuation – June 30, 2019 to June 30, 2020:

Healthcare claim costs are updated annually. Retired member contribution trend rates were updated to reflect the ongoing shift in population from pre-Medicare to Medicare-eligible and a projection of expected future retiree contributions reflecting the 10% decrease from 2019 to 2020. The Further Consolidated Appropriations Act, 2020 that was signed in December 2019 made several changes, including the repeal of the Cadillac Tax. The amounts included in the Normal Cost for administrative expenses were updated based on the most recent two years of actual administrative expenses paid from plan assets.

Changes in Benefit Provisions Since the Prior Valuation – June 30, 2019 to June 30, 2020:

There were no changes in benefit provisions since the prior valuation.

GASB requires ten years of information be presented. However, until a full ten years of information is available, the District will present only those years for which information is available.

Schedule of District Contributions (Pension) and (OPEB)

The table valuation date is June 30, 2019 which was rolled forward to June 30, 2020. Actuarially determined contribution rates are calculated as of June 30th, two years prior to the fiscal year in which contributions are reported.

3. Teachers' Retirement System

Schedule of District's Proportionate Share of Net Pension and OPEB Liability (Asset)

The table is presented based on the Plan measurement date which is one year prior to fiscal year end for all years presented.

Changes in Methods Since the Prior Valuation – June 30, 2019 to June 30, 2020:

There were no changes in actuarial methods since the prior valuation.

Changes in Assumptions Since the Prior Valuation – June 30, 2019 to June 30, 2020:

Healthcare claim costs are updated annually. Retired member contribution trend rates were updated to reflect the ongoing shift in population from pre-Medicare to Medicare-eligible and a projection of expected future retiree contributions reflecting the 10% decrease from 2019 to 2020. The Further Consolidated Appropriations Act, 2020 that was signed in December 2019 made several changes, including the repeal of the Cadillac Tax. Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2021

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Southeast Island School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the Schedule presents only a selected portion of the operations of Southeast Island School District, it is not intended to and does not present the basic financial statements of Southeast Island School District.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Southeast Island School District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Note 3. Passed Through Awards

No amounts were passed through to subrecipients.

Note 4. Nonmonetary Assistance

Nonmonetary assistance is reported in the schedule at fair market value of the commodities received and disbursed at June 30, 2021 the District had food commodities totaling \$4,796.

Notes to Schedule of State Financial Assistance

Year Ended June 30, 2021

Note 1. Basis of Presentation

The accompanying schedule of state financial assistance (the "Schedule") includes the state award activity of Southeast Island School District under programs of the State of Alaska for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Because the Schedule presents only a selected portion of the operations of Southeast Island School District, it is not intended to and does not present the basic financial statements of Southeast Island School District.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in Note 1 to the District's basic financial statements.

Note 3. Subrecipients

No state funds were passed through to Subrecipients.

Note 4. Major Programs

* denotes a major program for compliance audit purposes.

<u>Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based</u> on an Audit of Basic Financial Statements Performed in Accordance with *Government Auditing* <u>Standards</u>

Independent Auditor's Report

Members of the School Board Southeast Island School District Thorne Bay, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Southeast Island School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Southeast Island School District's basic financial statements, and have issued our report thereon dated October 27, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Southeast Island School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Southeast Island School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Southeast Island School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Members of the School Board Southeast Island School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Southeast Island School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

<u>Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance</u> <u>Required by Uniform Guidance</u>

Independent Auditor's Report

Members of the School Board Southeast Island School District Thorne Bay, Alaska

Report on Compliance for Each Major Federal Program

We have audited Southeast Island School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Southeast Island School District's major federal programs for the year ended June 30, 2021. Southeast Island School District's major federal programs are identified in the summary of auditor's results section of the accompanying Federal Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Southeast Island School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Southeast Island School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Southeast Island School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Southeast Island School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Southeast Island School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Southeast Island School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Southeast Island School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance with a type of compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

<u>Report on Compliance for Each Major State Program and Report on Internal Control Over</u> <u>Compliance Required by the State of Alaska Audit Guide and Compliance Supplement for State</u> <u>Single Audits</u>

Independent Auditor's Report

Members of the School Board Southeast Island School District Thorne Bay, Alaska

Report on Compliance for Each Major State Program

We have audited Southeast Island School District's compliance with the types of compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on each of Southeast Island School District's major state programs for the year ended June 30, 2021. Southeast Island School District's major state programs are identified in the accompanying schedule of state financial assistance.

Management's Responsibility

Management is responsible for compliance with state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Southeast Island School District's major state programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Southeast Island School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However our audit does not provide a legal determination of Southeast Island School District's compliance.

Opinion on Each Major State Program

In our opinion, Southeast Island School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of Southeast Island School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Southeast Island School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Southeast Island School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a deficiencies, in internal control over compliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.
