

Site Report – IGI – September, 2023

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Stephanie Canning, Head Teacher

Outstanding Activities and Events

Personnel

P.E. and Night gym positions have been filled, thank you Tony and Gregory Zackar! Still looking to fill our secondary generalist position.

Standards-Based System/Curriculum Progress

Students worked with REAP to learn about Alaska's renewable energy and conduct some projects here in IGI. Students also worked with IVC to participate in a cooperative extension focusing on berries, gardening, and traditional healing.

Technology Insights

No technology issues at the current moment.

Facility Update

Tony, our amazing maintenance and custodial worker has been working extremely hard to make our school amazing. He trained and then cleaned carpets that had previously not been cleaned for several years. He also has been working with Carl to learn about the rest of the system operations and day-to-day maintenance of the facility. We appreciate everything he does! Sewer is fixed and working.
LSAC Activity
Lsac held the first meeting of the year in September. Positive conversations surrounding communication, behaviors, involvement, and culture were held.
Volunteer Report
As our school needs many subs, we were fortunate enough to have volunteers who helped us through it, such as Christina Salmon and Tanya Salmon.
Professional Development
Ms. Gabbie is currently working with UAA to perform an audit on the culturally responsive certification program. Ms.Canning is in her internship and final stages of her master's in Administrative Education.
Pupil Attendance
Attendance has been strong, with almost 100% attendance!
Student and Staff Safety
No issues to report
Subsistence Calendar
The community supports the Subsistence Calendar. Although, we did have absences due to Moose hunting.
