

HOMEDALE TRANSPORTATION

AND MAINTENANCE

I just had my only full time sub bus driver quit and start driving potato truck. The school district used to pay the sub drivers so much a month whether they drove or not, it usually worked out where they drove more than not. I would like to maybe start that back up, and maybe this would help keep a sub driver. I will most likely have to contract trips out now and they charge a dollar a mile for dead head miles. Which is about forty dollars on top of the cost of the trip.
