Board Action Item Request

AGENDA ITEM: Annual Fiscal Audit Report - Action

MEETING DATE: October 15, 2025

PREPARED BY: Jessica Grantham

INFORMATIONAL SUMMARY:

In accordance with Idaho Code § 33-701(6), each year, school districts are required to have an independent audit of the District's financial records for the prior fiscal year and to review the results at a public meeting. The audit evaluates the District's compliance with state and federal standards and procedures, ensuring sound fiscal management practices and the effective, efficient use of public funds.

Completion and submission of the accepted annual audit report to the Idaho State Department of Education is required for the District to receive its November Foundation payment.

Attached is the District's Audit Report for Fiscal Year 2024–25, as conducted by the independent audit firm Hayden Ross. This evening, Tony Matson from Hayden Ross will present the audit and answer any questions.

RECOMMENDATION:

We recommend that the Board of Trustees accept the audited financial statements for the fiscal year ending June 30, 2025, as presented.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Lakeland Joint School District No. 272
Rathdrum, Idaho 83858

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lakeland Joint School District No. 272, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Lakeland Joint School District No. 272's basic financial statements listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Lakeland Joint School District No. 272, as of June 30, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lakeland Joint School District No. 272 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

The District has recorded a restatement for the implementation of GASB Statement No. 101, *Compensated Absences*, and a change in reporting entity, as further described in Note 14. Our opinion is not modified with respect to these matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lakeland Joint School District No. 272's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lakeland Joint School District No. 272's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lakeland Joint School District No. 272's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 12, the budgetary comparison schedules on pages 43 through 44, the net pension (asset) liability related schedules on page 45, the other post-employment benefits liability schedule on page 46, and the net OPEB asset – sick leave plan related schedules on page 47 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lakeland Joint School District No. 272's basic financial statements. The accompanying combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2025 on our consideration of Lakeland Joint School District No. 272's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lakeland Joint School District No. 272's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standard* in considering Lakeland Joint School District No. 272's internal control over financial reporting and compliance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Trustees
Lakeland Joint School District No. 272
Rathdrum, Idaho 83858

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of governmental activities, each major fund, and the aggregate remaining fund information of Lakeland Joint School District No. 272, as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise Lakeland Joint School District No. 272's basic financial statements, and have issued our report thereon dated October 14, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lakeland Joint School District No. 272's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lakeland Joint School District No. 272's internal control. Accordingly, we do not express an opinion on the effectiveness of Lakeland Joint School District No. 272's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control

that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lakeland Joint School District No. 272's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2025

As management of Lakeland Joint School District No. 272 (District), we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the fiscal year ended June 30, 2025.

Financial Highlights

State Revenue

Final reporting period average daily attendance funding units (support units) were 220.57 for FY 2024-25. This is a decrease of 2.75 units when compared to FY 2023-24 funding units of 223.32. Despite the decline in total funding units, there were slight increases in discretionary revenue distribution factors set by the Idaho legislature. These state funding changes created a net increase of \$959,731 in state revenues in the general fund compared to the previous year.

Supplemental Property Tax Levy Revenue

In the 2024-25 fiscal year, the School District's supplemental property tax levy generated \$7,509,448, representing 16.04% of the total General Fund revenues for the fiscal year. This revenue was derived from a two-year supplemental levy set to expire on June 30, 2025.

The total levy amount approved by voters was \$9,520,000; however, the amount assessed to taxpayers was reduced by \$2,374,821 due to the District's receipt of State of Idaho School District Facilities Funds (IC§ 33-911). These state-provided funds offset the levy's impact on local taxpayers while maintaining consistent funding for district operations.

General Fund Balance Decreases over the 2024-25 Fiscal Year

The School District's ending General Fund balance decreased by \$189,257 compared to the prior fiscal year. This decline was primarily due to the implementation of GASB Statement No. 101, which requires the recognition of a liability for future compensated absences for employees.

At the close of the 2024-25 fiscal year the District's fund balance was \$4,295,595.

Revenue and Resources

Enrollment and Attendance – A key factor in developing the annual budget is the projection of state funding, which is largely driven by student attendance and enrollment. Prior to fiscal year 2019-20, Idaho's public school funding formula was based on Average Daily Attendance (ADA). From 2020 to 2023, in response to attendance fluctuations caused by COVID-19, the Idaho

Board of Education temporarily shifted the funding formula to Average Daily Enrollment (ADE). This temporary rule expired on June 30, 2023, and funding reverted to the ADA-model.

This reversion resulted in fewer support units for districts statewide, including ours. In 2024-25, the District generated 220.57 support units, a decrease from 223.32 in 2023-24, largely due to slightly lower enrollment and reduced average daily attendance ratios.

For fiscal year 2024-25, districts received \$43,622 per support unit for discretionary funding, up from \$41,391 the prior year. Looking ahead, the District projects 214.00 support units for the 2025-26 fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components:

- 1) Government-wide Financial Statements,
- 2) Fund Financial Statements, and
- 3) Notes to the Financial Statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The statements present an aggregate view of the District's finances. They contain useful long-term information for the just completed fiscal year.

The statement of net position presents information on all of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the District, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position of the District changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. In the statements, the District's activities are all classified as government activities. Governmental activities include all regular and special education, all educational support activities, administration, transportation, and food services. Most of these activities are supported by property taxes and formula aid from the State of Idaho.

Fund financial statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund statements generally report operations in more detail than the government-wide statements.

Some funds are required by state law and bond covenants. The District establishes other funds to control and manage money for particular purposes (i.e., repaying long-term debt).

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Notes to the financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Required supplementary information. The budgetary comparison schedules, the net pension (asset) liability related schedules, the other post-employment benefit schedules provide additional information required by GASB.

Supplementary information. The supplementary information referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statements.

Total Net Position	\$39,183,822	\$22,502,869	\$16,680,953

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, net position as of June 30, 2025 was \$39,183,822.

The District uses capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF
GOVERNMENTAL ACTIVITIES**

June 30, 2025

Total fund balances - governmental funds	30,329,182
--	------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in government funds:

Cost of capital assets	63,564,977
Accumulated depreciation	(36,067,440)

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds.

104,663

Certain pension related items are recorded as deferred outflow or inflow of resources and recognized in futures periods for governmental activities:

Deferred outflow of resources	9,802,242
Deferred inflow of resources	(729,293)

Certain OPEB related items are recorded as deferred outflow or inflow of resources and recognized in futures periods for governmental activities:

Deferred outflow of resources	707,094
Deferred inflow of resources	(959,143)

Certain OPEB-sick leave related items are recorded as a deferred outflow or inflow of resources and recognized in future periods for governmental activities:

Deferred outflow of resources	424,515
Deferred inflow of resources	(522,648)

Total Net OPEB asset for PERSI-sick leave is a long-term asset and is not available to pay current year expenditures, therefore is not reported as an asset in governmental funds.

1,402,468

Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds. These liabilities consisted of the following:

OPEB liability	(2,299,671)
Net pension liability	(26,573,124)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2025

Net change in fund balances - total governmental funds 19,528,497

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are capitalized and allocated over their estimated useful lives as annual depreciation expense in the statement of activities:

Capital outlays	1,844,811	
Donated asset	92,810	
Depreciation expense	<u>(1,782,802)</u>	154,819

Some property taxes will not be collected for several months after the District's fiscal year end and they are not considered as "available" revenues in the governmental funds. Instead they are counted as deferred tax revenues. They are however, recorded as revenues in the statement of activities. (61,149)

Net pension (asset) liability adjustments:

Fiscal year 2024 employer PERSI contributions recognized as pension expense in the current year.	(3,895,137)	
Fiscal year 2025 employer PERSI contributions deferred to subsequent year	4,191,281	
Pension related amortization revenue (expense)	<u>(3,799,892)</u>	(3,503,748)

OPEB liability and related item adjustments (99,208)

Net OPEB asset - sick leave adjustment:

Fiscal year 2024 employer PERSI Sick Leave contributions recognized as OPEB expense in the current year	-	
Fiscal year 2025 employer PERSI Sick Leave contributions deferred to subsequent year	-	
OPEB related amortization revenue (expense)	<u>(158,943)</u>	(158,943)

Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the governmental fund financial statements, an interest expenditure is reported when due. 17,044

Repayment of the principal on general bonded indebtedness is an expenditure in the governmental funds, but they reduce long-term liabilities in the statement of net position and do not affect the statement of activities:

General obligation bonds	<u>1,030,000</u>

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2025

NOTE 1 Summary of Significant Account Policies

The financial statements of Lakeland Joint School District No. 272 have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below:

Reporting Entity

Lakeland Joint School District No. 272 is the basic level of government, which has financial accountability, and control over all activities related to the public-school education within the District. The Board receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined by GASB pronouncements, since Board members are elected by the public and have decision making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and have primary financial accountability for fiscal matters.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organization that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt, or levying of taxes. There are no organizations that meet the definition of a component unit. There are various organizations (Parent teacher associations, foundations, booster clubs, etc.) which provide donations and in-kind services for the benefit of the District; however, these organizations are not considered component units or reported as part of the reporting entity.

Basis of Presentation, Fund Accounting - Government-wide Statements: The statement of net position and the statement of activities display information about the financial activities of the overall District. Only governmental-type activities are shown, since there are no "business-type activities" within the District. The District eliminates internal activity on the statement of net position.

The statement of activities presents a comparison between direct expenses and program revenues for each different function of the District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses – expenses of the District related to the administration and support of the District's programs, such as personnel and accounting – are not allocated to programs.

NOTE 1 Summary of Significant Account Policies (Continued)

- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and state foundation aid, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund. This is the District's primary operating fund. It accounts for all financial resources, except those required to be accounted for in another fund.
- Debt Service Fund. This fund is used to account for the financial resources that are legally restricted for the retirement of District general obligation bonds.
- School Modernization Fund. This fund is used to account for the School Modernization Fund from the State.

Basis of Accounting - The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. State support for grant revenues are susceptible to accrual.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities, acquisitions under right-to-use lease/SBITA assets are reported as other financing sources.

NOTE 1 Summary of Significant Account Policies (Continued)

Under the terms of grant agreements, the District funds certain programs by cost-reimbursement grants and general revenues. When program expenses are incurred, the related revenue of cost-reimbursement grants is recognized.

Restricted Resources - The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Budgets - Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual budgets are adopted for general, special revenue, debt service, and capital projects funds.

The Board of Trustees follows these procedures in establishing the budgetary data reflected in the financial statements:

1. At least 14 days prior to the public hearing the District publishes a proposed budget for public review.
2. A public hearing is set to obtain taxpayers comments.
3. The final budget is adopted by resolution of the Board at the regular June meeting of the Board of Trustees.
4. Prior to July 15, the final budget is filed with the State Department of Education.

The budget is a plan of spending under which expenditures may not exceed the budget at the fund level.

Cash and Investments - The District's cash includes amounts in demand deposits and savings accounts in local depositories. Investments are deposited in the Idaho State Treasurer's Local Government Investment Pool, which allow school districts within the state of Idaho to pool their funds for investments purposes.

Interest income is defined as non-operating revenue.

Deposits in State Treasurer's local government investment pool are stated at cost, which approximates market. All funds are invested in accordance with Section 67-1210 and 67-1210A of the Idaho Code. The primary objectives of the investment pool, in order of priority, are safety, liquidity, and yield.

Short-Term Interfund Loans Receivables/Payables - During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund

NOTE 1 Summary of Significant Account Policies (Continued)

receivables/payables.” Interfund balances have been eliminated, when applicable, on the statement of net position.

Inventory - The District does not follow the practice of capitalizing expendable supplies at year-end in the general fund. All supplies are recorded as expenditures in the period in which they were purchased. However, in the child nutrition fund, the District records inventory of food commodities at cost at year-end.

General Capital Assets - Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

The Board has set a capitalization threshold of \$5,000. All purchases and improvements to facilities, which are not considered repairs, are capitalized and depreciated using the straight-line method in the government-wide statements and proprietary funds. Lives for buildings and improvements range from 15 to 40 years. Lives for equipment range from 3 to 10 years. Vehicles and school buses have estimated lives of 10 to 20 years.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Compensated Absences - Employees of the District earn various types of paid time off, including vacation, sick leave, and other forms of leave, in accordance with the District’s policies. The benefits are earned based on length of service and may be subject to accumulation limits depending on the type of benefit. The liability for compensated absences is recognized to the extent the benefit is attributable to services already rendered, the leave accumulates, and the leave benefit is more likely than not to be used in the future. In the governmental funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as a liability of the fund. The long-term portion of compensated absences is reported in the government-wide financial statements.

Long Term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Leases - The District evaluates the lease agreement at the time of inception to determine the reporting requirements of each lease. Leases that met the definition of a right-of-use (ROU) lease are included as ROU lease assets and ROU lease liabilities on the government-wide financial statements.

NOTE 1 **Summary of Significant Account Policies (Continued)**

ROU assets represent the District's right to use an underlying asset for the lease term and lease liabilities represent the obligation to make lease payments arising from the lease. Lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the leases do not provide an implicit rate, the District's incremental borrowing rate, based on the information available at commencement date, is used to determine the present value of lease payments. The lease terms may include options to extend or terminate the lease when it is reasonably certain that the option(s) will be exercised. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Leases with a maximum term of 12 months or less are excluded from the ROU asset and liability amounts.

Subscription-based Information Technology Arrangements (SBITA) - The District evaluates the IT contract at the time of inception to determine the reporting requirements of each IT contract. The District evaluates the term of the IT contract at inception. SBITAs that met the definition of a right-of-use (ROU) agreement are included as SBITA ROU assets and SBITA ROU liabilities on the government-wide financial statements.

ROU assets represent the District's right to use an underlying IT asset for the IT contract term and ROU liabilities represent the obligation to make lease payments arising from the contract. SBITA ROU assets and liabilities are recognized at commencement date based on the present value of contract payments over the IT contract term. As most of the contracts do not provide an implicit rate, the District's incremental borrowing rate, based on the information available at commencement date, is used to determine the present value of contract payments. The IT contract terms may include options to extend or terminate the contract when it is reasonably certain that the option(s) will be exercised. SBITA expense for contract payments is recognized on a straight-line basis over the contract term. IT contracts with a maximum term of 12 months or less are excluded from the SBITA ROU asset and liability amounts.

Deferred Compensation - The Sick Leave Bank represents a type of long-term payroll protection insurance for absences beyond the employee's accumulated sick leave. Participation is optional for all employees eligible for the Idaho Public Employees Retirement System, with all new participants contributing one sick leave day. The Bank is administered by an in-District five-member committee as provided in the Teacher Negotiated Agreement.

Encumbrances - The District does not utilize an encumbrance system.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fund Balance - The *nonspendable* fund balance category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The *restricted* fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers (grants), or through enabling legislation. The *committed* fund balance classification includes

NOTE 1 **Summary of Significant Account Policies (Continued)**

amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority, the Board of Trustees. Amounts in the *assigned* fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, *assigned* fund balance represents the remaining amount that is not restricted or committed. *Unassigned* fund balance is the residual classification for the government's general fund and includes all spendable amount not contained in the other classifications. The District's fund balance policy is to maintain an unassigned fund balance of not less than 8.3% and not more than 16.6% of the general fund expenditures budget for the fiscal year.

Restricted balances are as follows:

- **Capital Projects** – The capital projects accounts for the acquisition, construction, or major repair of school property, the purchase of buses, specific board designated projects, and land acquisitions.
- **Specific Programs** – Special revenue funds restricted for amounts that can only be spent for specific purposes.
- **Debt Service** – These restricted funds are used to make the principal and interest payments for outstanding general obligation bonds.

Assigned balances, as approved by the Board of Trustees, are as follows:

- **FY2026** – The Board of Trustees has assigned \$36,454 of the FY2025 fund balance to fiscal year 2026 expenditures.

Nonspendable balances are as follows:

- **Inventory** – transportation parts, food, and custodial supplies

Deferred Revenue - Deferred revenue in the general, debt service and capital projects fund represent property taxes recorded but not estimated to be collected within sixty days of the end of the accounting period.

Other Deferred Revenue - Deferred revenue in the before and after school enrichment fund represents revenue received but not yet earned.

Unavailable Property Tax Revenue - Unavailable property tax revenue in the general fund represent the property taxes levied for 2025 that is measurable but unavailable to the District, and therefore recorded as a deferred inflow of resources in both the governmental funds and the government-wide financial statements.

Pensions - For purposes of measuring the Net Pension (Asset) Liability, deferred outflows of resources and deferred inflow of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employee Retirement System of

NOTE 1 **Summary of Significant Account Policies (Continued)**

Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB) - For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District and additions to/deductions from District's fiduciary net position have been determined on the same basis as they are reported by District. For this purpose, the District recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost. Each governmental fund of the District is used to liquidate the total OPEB liability during the year based on a proportion of salaries in each fund compared to total salaries of the District.

For purposes of measuring the net OPEB asset sick leave, deferred outflows of resources and deferred inflows of resources related to OPEB sick leave, and OPEB sick leave expense (expense offset), information about the fiduciary net position of the Public Employee Retirement System of Idaho (PERSI or System) Sick Leave Insurance Reserve Fund and additions to/deductions from Sick Leave Insurance Reserve Fund's fiduciary net position have been determined on the same basis as they are reported by the Sick Leave Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Subsequent Events - Management has evaluated subsequent events through the date of the audit report. This is the date the financial statements were available to be issued. Management has concluded that no material subsequent events have occurred.

NOTE 2 **Recently Adopted Accounting Guidance**

For the year ended June 30, 2025, there were two new GASB statements that became effective. The adoption of the statement has the following effect for the District:

GASB Statement No. 101, *Compensated Absences* - This statement establishes recognition and measurement guidance for compensated absences, such as vacation and sick leave, and outlines the required note disclosures. It aims to enhance consistency and comparability in accounting for these liabilities. See Note 14 for disclosures related to compensated absences.

GASB Statement No. 102, *Certain Risk Disclosures* – This statement requires governments to disclose information about certain concentrations and constraints that make them vulnerable to the risk of a significant impact on financial position, revenue streams, or demand for services. The disclosures aim to improve transparency regarding risks that could affect a government's ability to meet its obligations.

NOTE 3 Property Tax

The District's property tax is recognized as an asset at the time the District has an enforceable legal claim to the resources (January 1st of each year) and the revenue is recognized in the period for which the taxes are levied. For FY2025, the District has recognized the 2024 levy as revenue and the tax year 2025 levy as an asset.

Tax Year 2024 Levy (FY2025 Revenue)

The market value upon which the 2024 levy was based was \$9,129,605,311. The property tax was levied in October 2024 and was due in two equal installments on December 20th and June 20th.

The total tax levy (per \$100 of value) for the year was as follows:

	Percentage	Amount
Supplemental	7.82638	\$7,142,646
Tort	0.11560	\$105,501
Bond	1.25583	\$1,149,430
Total	9.20144	\$8,397,577

Tax Year 2025 Levy (FY2025 Asset)

The property tax levy for 2025 has been recorded as an asset in the general fund in the amount of \$3,529,834. This levy is for the FY2026 operations and has been presented as unbilled taxes receivable.

Deferred Revenue

To the extent property taxes are not collected within 60 days of the end of the accounting period, a deferred revenue amount has been recorded.

	General Fund	Debt Service Fund	School Plant Facility	Total
Total taxes receivable at June 30, 2025	152,618	15	23,592	176,225
Less: Taxes to be collected by the County Treasurer by August 31, 2025	(61,971)	-	(9,591)	(71,562)
Deferred revenue	<u>\$ 90,647</u>	<u>\$ 15</u>	<u>\$ 14,001</u>	<u>\$ 104,663</u>

NOTE 4 Cash and Investments

Deposits

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Cash		
Checking and Savings Accounts	<u>\$ 3,774,027</u>	<u>\$ 4,697,620</u>

Deposits were with Wells Fargo of which \$250,000 of interest-bearing accounts and non-interest-bearing accounts were covered by Federal Deposit Insurance. The remaining balance of \$4,411,957 is in excess of the FDIC insured limit and is uncollateralized and unsecured.

Investments

Detail of investments at June 30, 2025 are as follows:

	<u>Rate</u>	<u>General Fund</u>	<u>Facilities</u>	<u>School Modernization</u>	<u>Student Activity</u>	<u>Total</u>
State Treasurer's Pool	Variable	6,563,137	688,742	20,155,958	751,656	28,159,493
Total		<u>\$6,563,137</u>	<u>\$ 688,742</u>	<u>\$ 20,155,958</u>	<u>\$751,656</u>	<u>\$28,159,493</u>

The District's investments, except for amounts held in the State Treasurer's Pool, are classified as uncollateralized.

Investment Maturities:

<u>External Investment Pool</u>	<u>Book Value</u>	<u>Fair Value</u>	<u>Less than 1 Year</u>	<u>1-8 Years</u>
State InvestmentPool	<u>\$28,159,493</u>	<u>\$28,159,493</u>	<u>\$ 28,159,493</u>	<u>\$ -</u>

The State Treasurer's Local Government Investment Pool is managed by the State of Idaho Treasurer's office. All funds are invested in accordance with Section 67-1210 and 67-1210A of Idaho Code. Authorized investments include bonds, treasury bills, interest-bearing notes, and other obligations of the U.S. Government, general obligation or revenue bonds of the State of Idaho or other local governments within the state of Idaho, bonds, debentures, or other similar obligations issued by the farm credit system or by public corporations of the state of Idaho, repurchase agreements covered by any legal investment for the state of Idaho, tax anticipation bonds or notes and income and revenue anticipation bonds or notes of taxing districts of the state of Idaho, revenue bonds of institutions of higher education of the state of Idaho, and time deposits and savings accounts in amounts not to exceed applicable insurance limits. The primary objectives of the investment pool, in order of priority, are safety, liquidity, and yield.

Participants have overnight availability to their funds, up to \$10 million. Withdrawals of \$10 million or more require three business days' notification.

The State Treasurer's investment policies and the Local Government Investment Pool financial statements can be obtained by writing P.O. Box 83720, Boise, ID 83720-0091.

NOTE 4 Cash and Investments (Continued)

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. Custodial credit risk for investments is the risk that in the event of the failure of the counter party (e.g., broker-dealer) to a transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District does not have a policy restricting the amount of deposits and investments subject to custodial credit risk.

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization such as Moody's or Standard & Poor's. The investments of the District at year-end are not required to be rated. The District does not have a policy regarding credit risk.

Interest rate risk is the risk that changes in market interest rates will adversely impact the fair value of an investment. Investments that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rate. At year-end, the District is not subject to interest rate risk as all investments are held in the State Treasurer's Local Government Investment Pool, which has a maturity of 76 days. The District does not have a policy regarding interest rate risk.

Concentration of credit risk is the risk that concentration of investments with one issuer represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The Governmental Accounting Standards Board has adopted a principal that governments should provide note disclosure when five percent of the total investments of the entity are concentrated in any one issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The District does not have a policy limiting the amount it may invest in any one issuer.

NOTE 5 Capital Assets

NOTE 6 Long Term Liabilities

The following is a summary of bond transactions of the District for the year ended June 30, 2025:

Bonds payable @ July 1, 2024	1,030,000
Debt retired	(1,030,000)
Bonds payable @ June 30, 2025	<u>\$ -</u>

Changes in long-term bond obligations: During the year ended June 30, 2025, the following changes occurred in liabilities:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>	<u>Noncurrent Portion</u>
2013 Refunding series	1,030,000	-	(1,030,000)	-	-	-
Totals	<u>\$ 1,030,000</u>	<u>\$ -</u>	<u>\$(1,030,000)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

As of June 30, 2025, \$534 was available in the debt service fund to service the general obligation bonds.

Compensated Absences

Employees of the District earn various types of paid time off, including vacation, sick leave, and other forms of leave, in accordance with the District's policies. The benefits are earned based on length of service and may be subject to accumulation limits depending on the type of benefit. The liability for compensated absences is recognized to the extent the benefit is attributable to services already rendered, the leave accumulates, and the leave benefit is more likely than not to be used in the future. In the governmental funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as a liability of the fund. The long-term portion of compensated absences is reported in the government-wide financial statements.

During the year ended June 30, 2025, the following changes occurred to accrued compensated absences:

<u>Beginning Balance</u>	<u>Net Additions/Reductions</u>	<u>Ending Balance</u>	<u>Due Within One year</u>
\$ 226,359	\$ (678)	\$ 225,681	\$ 225,681

NOTE 7 Pension Plan

In accordance with GASB 68, *Accounting and Financial Reporting for Pensions*, which became effective for the year ended June 30, 2015, the financial reporting and note disclosures are based off the most recent audited financial statements of PERSI, which was completed for the period ended June 30, 2024. All amounts are as of June 30, 2024 unless otherwise noted.

NOTE 7 Pension Plan (Continued)

Plan Description

The District contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies, and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months. Amounts in parenthesis represent police/firefighters.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% of the employer rate for general employees and 72% for police and firefighters. As of June 30, 2025 it was 7.18% for general employees and 8.08% for school members. The employer contribution rate is set by the Retirement Board and was 11.96% of covered compensation for general employees and 13.48% for school members. The District's employer contributions required and paid were \$4,191,281 for the year ended June 30, 2025.

NOTE 7 Pension Plan (Continued)

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability of \$26,573,124 for its proportionate share of the Net Pension (Asset) Liability as of June 30, 2024. The Net Pension (Asset) Liability was measured as of June 30, 2024, and the total pension (asset) liability used to calculate the Net Pension (Asset) Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net Pension (Asset) Liability was based on the District's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2024, the District's proportion was 0.71038885%.

The District's pension expense (revenue) is calculated and made available as part of PERSI's annual audit. PERSI's audit for the year ended June 30, 2025 has not been completed at the time of issuance. The pension expense (revenue) for the year ended June 30, 2024 was calculated at \$7,642,420.

At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	4,230,687	-
Changes in assumptions or other inputs	1,052,691	-
Net difference between projected and actual earning on pension plan investments	-	482,347
Change in proportionate share	327,583	246,946
Employer contributions subsequent to the measurement date	<u>4,191,281</u>	<u>-</u>
Total	<u>\$9,802,242</u>	<u>\$ 729,293</u>

\$4,191,281 is reported as deferred outflow of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension (Asset) Liability in the year ended June 30, 2026.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

<u>For the Year Ending June 30:</u>	<u>Amount to be Recognized</u>
2026	1,311,542
2027	4,954,628
2028	(854,416)
2029	(610,723)
2030	80,637

NOTE 7 Pension Plan (Continued)

Actuarial Assumptions

The following are the actuarial assumptions and the entry age normal cost method, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases including inflation	3.05%
Investment rate of return-net of investment fees	6.35%
Cost of living (COLA) adjustments	1.00%

Several different sets of mortality rates are used in the valuation for contributing members, members retired for service and beneficiaries. These rates were adopted for the valuation dated July 1, 2021.

Contributing Members, Service Retirement Members, and Beneficiaries

General Employees and All Beneficiaries - Males	Pub-2010 General Tables, increased 11%.
General Employees and All Beneficiaries - Females	Pub-2010 General Tables, increased 21%.
Teachers - Males	Pub-2010 Teacher Tables, increased 12%.
Teachers - Females	Pub-2010 Teacher Tables, increased 21%.
Fire & Police - Males	Pub-2010 Safety Tables, increased 21%.
Fire & Police - Females	Pub-2010 Safety Tables, increased 26%.
Disabled Members - Males	Pub-2010 Disabled Tables, increased 38%.
Disabled Members - Females	Pub-2010 Disabled Tables, increased 36%.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of PERSI's assets. The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	0%	0.00%
Large Cap	18%	4.50%
Small/Mid Cap	11%	4.70%
International Equity	15%	4.50%
Emerging Markets Equity	10%	4.90%
Domestic Fixed	20%	-0.25%
TIPS	10%	-0.30%
Real Estate	8%	3.75%
Private Equity	8%	6.00%

NOTE 7 Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension (asset) liability was 6.35%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension (asset) liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the Net Pension (Asset) Liability to changes in the discount rate.

The following presents the net pension (asset) liability of PERSI employer's calculated using the discount rate of 6.35% as well as what the employer's liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease <u>(5.35%)</u>	Current Discount Rate <u>(6.35%)</u>	1% Increase <u>(7.35%)</u>
Employer's proportionate share of the Net Pension (Asset) Liability (asset)	\$50,497,215	\$26,573,124	\$7,033,240

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the pension plan

At June 30, 2025, the District reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

NOTE 8 Other Post-Employment Benefit Plan – Sick Leave Plan

In accordance with GASB 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*, which became effective for the year ended June 30, 2018, the financial reporting and note disclosures are based off the most recent audited financial statements of PERSI, which was completed for the period ended June 30, 2024. All amounts are as of June 30, 2024 unless otherwise noted.

NOTE 8 Other Post-Employment Benefit Plan – Sick Leave Plan (Continued)

Plan Description

The District contributes to the Sick Leave Insurance Reserve Fund (Sick Leave Plan) which is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits that are administered by PERSI that covers substantially all employees of the State of Idaho, its agencies, and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for the Sick Leave Plan. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

OPEB Benefits

Group retiree health, dental, accident, and life insurance premiums may qualify as a benefit. Retirees who have a sick leave account can use their balance as a credit towards these premiums paid directly to the applicable insurance company.

Employer Contributions

The contribution rate for employees is set by statute at .065% of covered compensation for state members. Covered school members contribution rates are set by statute based on the number of sick days offered by the employer. The contribution rate of 1.16% for school members with nine or ten sick days, 1.26% for school members with 11-14 sick days. If a school member has more than 14 days of sick leave, then the contribution rate will be set by the PERSI Retirement Board based on current cost and actuarial data and reviewed annually. Beginning January 1, 2020 PERSI approved an 18-month rate holiday. During the rate holiday, all sick leave contribution rates are 0%. The holiday was extended to June 30, 2026, therefore the District's contributions required and paid were \$0 for the year ended June 30, 2025.

OPEB Liabilities, OPEB Expense (Expenses Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2024, the District reported an asset of \$1,402,468 for its proportionate share of the net OPEB asset as of June 30, 2024. The net OPEB asset was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB asset was based on the District's share of contributions relative to the total contributions of all participating Sick Leave employers. At June 30, 2024, the District's proportion was 1.5749938%.

NOTE 8 Other Post-Employment Benefit Plan – Sick Leave Plan (Continued)

The District's OPEB expense (expense offset) is calculated and made available as part of PERSI's annual audit. PERSI's audit for the year ended June 30, 2025 has not been completed at the time of issuance. The OPEB expense (expense offset) for the year ended June 30, 2024 was calculated at \$162,002.

At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	171,239	54,988
Changes in assumptions or other inputs	229,157	370,439
Net difference between projected and actual earning on pension plan investments	-	72,179
Change in proportionate share	<u>24,119</u>	<u>25,042</u>
Total	<u>\$424,515</u>	<u>\$ 522,648</u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (expense offset) as follows:

<u>For the Year Ending June 30:</u>	<u>Amount to be Recognized</u>
2026	(34,987)
2027	122,571
2028	(106,116)
2029	(92,297)
2030	31,658
Thereafter	(18,962)

Actuarial Assumptions

The following are the actuarial assumptions and the entry age normal cost method, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases including inflation	3.05%
Investment rate of return-net of investment fees	5.45%
Health care trend rate	N/A*

*Health care trend rate is not applicable as the benefit is based on the unused sick leave hours at retirement and is calculated as a fixed dollar amount that can be applied to premiums

NOTE 8 Other Post-Employment Benefit Plan – Sick Leave Plan (Continued)

The long-term expected rate of return on OPEB Fund investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the approach used builds upon the latest capital market assumptions. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is more conservative than the current allocation of the System's assets. The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

Capital Market Assumptions

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Expected Real Rate of Return (Arithmetic)</u>
Broad U.S. Equity	39.3%	4.90%
Developed Ex U.S. Equity	10.7%	4.78%
Fixed Income	50.0%	0.50%

Discount Rate

The discount rate used to measure the total OPEB liability (asset) was 5.45%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the Fund's net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Fund investments was applied to all periods of projected benefit payments to determine the total OPEB liability (asset). The long-term expected rate of return was determined net of OPEB plan investment expense but without reduction for OPEB plan administrative expense.

Sensitivity of the net OPEB liability (asset) to changes in the discount rate

The following presents the District's proportionate share of net OPEB liability (asset) calculated using the discount rate of 5.45 percent, as well as what the District's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage-point lower (4.45 percent) or 1-percentage-point higher (6.45 percent) than the current rate:

	<u>1% Decrease</u> <u>(4.45%)</u>	<u>Current Discount</u> <u>Rate (5.45%)</u>	<u>1% Increase</u> <u>(6.45%)</u>
Employer's proportionate share of the net OPEB liability (asset)	\$(1,012,117)	\$(1,402,468)	\$(1,759,407)

NOTE 8 Other Post-Employment Benefit Plan – Sick Leave Plan (Continued)

OPEB plan fiduciary net position

Detailed information about the OPEB plan's fiduciary net position is available in a separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payable to the OPEB plan

At June 30, 2025, the District reported payables to the defined benefit OPEB plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

NOTE 9 Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

NOTE 10 Excess of Actual Expenditures over Budget in Individual Funds

The following funds had an excess of actual expenditures over budget for the year ended June 30, 2025:

NOTE 12 Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 13 Other Post-Employment Benefits

Summary of Significant Accounting Policies

For purposes of measuring the Other Post-Employment Benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the Lakeland Joint School District Employee Group Benefit Plan have been determined based the requirements of GASB 75, Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions. The Plan has been calculated using the entry age normal funding method.

General Information about the OPEB Plan

The Lakeland Joint School District Employee Group Benefit Plan is a single employer defined benefit OPEB plan that provides benefits to current and future retirees.

Retirement and Dependent Medical Benefit Eligibility

Upon separation from public school employment by retirement in accordance with Chapter 13, Title 59, Idaho Code, a retiree may continue to pay premiums for the retiree and the retiree's dependents at the rate for the active employee's group health, long-term care, vision, prescription drug and dental insurance programs as maintained by the employer for the active employees until the retiree and/or the retiree's spouse becomes eligible for Medicare at which time the district shall make available a supplemental program to Medicare for the eligible individual (Medicare Retirees).

Eligibility for Retirement

Normal retirement eligibility is age 65 with five years of service, including six months of membership service. Early retirement eligibility is age 55 with five years of service, including six months of membership coverage.

Medicare Retirees

Medicare retirees are defined as retirees who are 65 years of age or older, are not included in the District's plan, and Medicare will be considered their primary plan. Medicare Retirees and eligible dependents who enroll in Medicare (both Part A and Part B) are eligible to participate in the Statewide School Retiree Program that supplements Medicare.

NOTE 13 Other Post-Employment Benefits (Continued)

Funding

The District's OPEB plan is funded under a pay-as-you-go funding method. Under this method, the District has not set aside any assets (nor accumulated any assets in a trust) that meet the definition of plan assets under GASB 74 or 75 to offset the OPEB liability.

OPEB Benefits

The health care benefits are contracted by the District through group medical and dental plans. The medical and dental plans include an annual deductible, coinsurance payment requirements, and an annual out-of-pocket maximum for the member/family. The prescription drug benefit is provided through a tiered system comprising of the type of prescription (generic, preferred brand, and non-preferred brand) and the method of purchase.

Census Data

As of June 30, 2024, the valuation date, the District had 562 active (future retirees) participants and 196 inactive (current retirees) participants.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the Employer reported a liability of \$2,299,671 of the OPEB liability. The OPEB liability was measured as of June 30, 2025, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2024.

For the year ended June 30, 2025, the Employer recognized OPEB expense of \$274,026. At June 30, 2025, the Employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	644,094	519,635
Changes in assumptions or other inputs	63,000	439,508
Total	<u>\$707,094</u>	<u>\$959,143</u>

The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

Actuarial assumptions

Valuation Date June 30, 2024

Measurement Date June 30, 2025

Interest/Discount Rate 4.93%

Projected Payroll Increases 3.75%

Health Care Cost Trend Rate Medical: between 4.0% and 7.5%
Prescription Drugs: between 1.2% and 9.2%
Dental: between 2.0% and 4.4%
Vision: between 2.0% and 2.3%

Retiree Contributions Retiree contributions are assumed to increase to match the health care cost trends.

Participation

For future retirees, participation rates were assumed to be 40.0% for medical, 36.7% for vision coverage, and 45.6% for dental coverage. Actual spouse information is used for current retirees. Future retired members who elect to participate in the plan are assumed to be married at a rate of 60.0%. 70.0% of the future retirees who elect medical coverage and married are assumed to elect spousal coverage as well. Males are assumed to be three years older than females.

Mortality

For PERSI teachers, mortality follows the Pub-2010 Teacher table adjusted 112% for males or adjusted 121% for females, projected generationally using mortality improvement rates reported by Social Security Administration from 1957 to 2017. For disabled PERSI members, mortality follows the Pub-2010 Disabled table adjusted 138% for males or adjusted 136% for females, projected generationally using mortality improvement rates reported by Social Security Administration from 1957 to 2017.

Interest/Discount rate

The interest/discount rate is based on the average of multiple June 30, 2025 municipal bond rate sources.

Sensitivity Disclosures

The following presents the OPEB liability of the Plan as of June 30, 2024, calculated using the

NOTE 14 Accounting Changes

During fiscal year 2025, the District adopted GASB 101. This adjustment had a net effect of increasing compensated absences liability and decreasing fund balance in the general fund, and net position of governmental activities by \$226,359.

The District moved the Capital Projects Funds from a major to a nonmajor fund, as it no longer meets the requirements to be classified as a major fund. This represents a change within the reporting entity, affecting the beginning fund balance of the governmental funds.

During fiscal year 2025, GASB 101 adoption resulted in adjustments to and restatements of beginning fund balance and net position as follows:

	<u>General Fund</u>	<u>Capital Projects</u>	<u>Other Governmental Funds</u>	<u>Government Activities</u>

To the Board of Trustees
Lakeland Joint School District No. 272
Rathdrum, Idaho

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lakeland Joint School District No. 272 for the year ended June 30, 2025. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated June 25, 2025, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of the system of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the system of internal control of Lakeland Joint School District No. 272 solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm, have complied with all relevant ethical requirements regarding independence. Such safeguards were communicated to your in the Independence Letter dated June 25, 2025.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by Lakeland Joint School District No. 272 is included in Note 1 to the financial statements. As described in Note 2 to the financial statements, during the year, the entity changed its method of accounting for compensated absences by adopting Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences. Accordingly, the cumulative effect of the accounting change as of the beginning of the year has been reported as described in Note 14. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates and Related Disclosures

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the school district's financial statements were:

Management's estimate of the useful lives of property and equipment is based on industry standards for the various types of assets. We evaluated the key factors and assumptions used to develop the useful lives of property and equipment in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the pension/OPEB related balance sheet accounts. We evaluated the key factors and assumptions used to develop the related deferred outflow and inflow of resources and the net pension liability, OPEB liability and OPEB asset in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. Management has corrected all such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to Lakeland Joint School District No. 272's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain representations from management that are included in the management representation letter dated October 14, 2025.

Management Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Lakeland Joint School District No. 272's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to management's discussion and analysis, the net pension liability schedules, other post employment benefit liability schedule, net OPEB asset – sick leave plan related schedules, and the respective budgetary comparison schedules, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the combining and nonmajor fund financial statements, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of Board of Trustees and management of Lakeland Joint School District No. 272 and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Hayden Ross, PLLC
