Subject: Mockingbird Solar Project Presentation

Presenter: Dominic Salinas

Information: Lincoln Clean Energy, LLC (“LCE”) is proposed to develop a 200 MW solar generation facility in Hill County, located entirely within the bounds of Hillsboro ISD. The project, known as Mockingbird Solar, is expected to achieve COD on or before December 31, 2022. LCE is currently in the process of obtaining proper permitting, interconnection, and incentive agreements needed to make the project economically viable in Hill County.
