Taw,

With the amount of trash being generated by the school district, we are overloading our current dumpsters. In order to help control the way waste is stored I am asking to have four new dumpsters added to the board agenda for approval. With the purchase of the new dumpsters two will be added to the high school, one to the middle school and one for the elementary school. The additional capacity at each building will prevent the need to store trash in the entry ways, custodial closet, or boiler rooms. This will also alleviate build up over MIC holidays, sporting events, and concerts.

The amount for four new dumpsters is \$10,680.00. I am asking for a budget of \$14,000.00 to account for shipping and possible pricing changes.

Thank you for your time  
Cameron Benson
