Goal 1: Engagement

South Meadows wrapped up the school year with a variety of activities designed to strengthen student engagement, celebrate learning, and build connections with families.

- Fifth grade students selected and organized a school wide Spirit Week during the second to last week of school, creating excitement.
- The PTO Ice Cream Social was a huge success, bringing together a large number of families for an evening of connection and celebration. Thank you to our PTO for sponsoring the event and to the Kiwanis Club for their support.
- Fourth grade students enjoyed an end of year celebration at the Beach Middle School pool, where they participated in swimming and a picnic with classmates.
- Third grade students showcased their learning through Michigan Adventure Day, inviting families to participate in outdoor stations that combined Michigan history, hands-on learning, and active play.
- Fifth grade students celebrated their final year of elementary school through additional end of year activities, including a special Fifth Grade Shenanigans Field Day and an afternoon of ice skating with classmates.
- South Meadows concluded the school year with a school wide Field Day organized by Mr. Rhodes. The event provided students with opportunities for teamwork, physical activity, and fun while celebrating another successful year together. The day concluded with our annual Fifth Grade Clap Out as we recognized our students moving on to middle school.
- Throughout the month, students also participated in grade level celebrations, classroom showcases, and end of year reflection activities that highlighted academic growth, positive relationships, and the strong sense of community that exists at South Meadows.

Respectfully,

Katie Spisich, South Meadows Elementary Principal
Chelsea School District
