RE: ***District Wide Security Film Projects***  
KAI Prj. #2288-70

Dear Ms. Anderson:

On March 26th, 2024, we successfully received (3) bids for this project.

- Hazelhoff Builders, Inc..... \$346,576.00
- Michigan Tint Co., LLC..... \$76,465.00
- NGS dba NGS Films & Graphics..... \$282,645.00

We have reviewed the bids provided by all of the bidders for this project. Based on the Bids provided and our bid review we have confirmed that **Hazelhoff Builders, Inc.** has provided a qualified bid that meets all the contract requirements, and they were the only company that included the entire project scopes for each building.

Hazelhoff Builders, Inc. has been a good partner in many of the District's recent projects with good success. They have an extensive knowledge of district facilities and know firsthand district requirements for facility improvements. It should also be noted that they specifically have completed previous security film applications in the District as part of the recent bond improvements.

Therefore, it is our recommendation that the Gull Lake Community Schools (GLCS) award the construction contract for the District Wide Security Film Projects to **Hazelhoff Builders, Inc.** that includes each of the District's facility's construction scope for the total lump sum amount of **\$346,576.00**. It is also our recommendation that using a single entity for these projects would provide better construction consistency, contract enforcement, and administrative tracking.

Please feel free to contact our office if you have any questions regarding this recommendation.

Sincerely,

Robert Budzeika  
Project Manager
