Academic Achievement – Grading and Reporting

Strong communication between teachers, parents and students is essential to support home/school partnerships and student success. This policy outlines the principles and requirements for grading and reporting of student achievement.

 - achievement ~~in relation to~~ of current expectations towards academic course goals and standards.
 - individual student growth
 - behavior affecting academic achievement (e.g., attitude, effort and attendance)

While behavior may affect achievement, it shall not be used as criteria for determining a student's grade.

2. Course learning goals and the information and process the teacher will use to assess and determine student achievement shall be communicated to students and parents at the beginning of the course.
3. Reporting of student achievement shall be:
 - clear, and understandable ~~and accessible~~
 - ~~—consistent and standardized across subjects, courses and grade levels, district-wide~~
 - based on valid and reliable assessment
 - accessible, efficient and manageable for all stakeholders
 - timely and at regular intervals.

Parents will be notified as soon as practicable when student academic performance or behavior jeopardizes success or shows sudden marked deterioration.

4. Letter grades ~~and GPA information~~ shall be provided at the high school level on all progress reports and report cards, ~~consistent with the expectations of universities and accrediting associations.~~
5. With advance notice, student achievement reports will be provided in an alternative format or language, in order to promote effective communication with individuals with disabilities or language needs.
6. Significant changes at any level will be based on ~~data~~ research, circulated to staff and the community for feedback, approved by the Superintendent or designee ~~evaluated for impact~~, and approved by ~~reported to~~ the Board. The Board will approve the changes if they meet the requirements of this policy.

STUDENT CONDUCT/STUDENT DISCIPLINE

The Board expects students ~~conduct~~ to contribute to a productive learning climate. All students shall comply with the District's written rules, pursue the prescribed course of study, submit to the lawful authority of District staff and conduct themselves in an orderly manner at school during the school day or during school-sponsored activities. This conduct applies to students en route to and from school and District ~~school~~-sponsored activities.

The school discipline program shall promote the following fundamental concepts for living:

- 1. Understanding and respect for individual rights, dignity and safety;*
- 2. Understanding and respect for the law, District policies, procedures, rules and regulations;*
- 3. Understanding of and respect for public and private property rights.*

The District's student discipline philosophy is also based upon the need for an effective communication system that promotes open discussion and resolution of issues.

Discipline methods and procedures shall be fair, consistent and unbiased. The objectives of disciplining any student must be to help the student develop the self-discipline necessary to remain in school and to function successfully in the educational and social environment, realize the responsibility of one's actions and maintain a productive learning environment.

A student code of conduct, developed under the leadership of the District administration, and in cooperation with staff, will be made available annually and distributed to parents, ~~and~~ students, and employees outlining student conduct expectations and possible disciplinary actions that are age-appropriate, commensurate with the behavior, and to the extent practicable, research-based including consequences for disorderly and consistently enforced in the schools.

~~Students in violation of Board policy, administrative regulation and/or code of conduct provisions will be subject to discipline up to and including expulsion.~~ *A student whose conduct is seriously detrimental to the school's best interests may be suspended. Students may be expelled for any of the following circumstances: a) when a student's conduct poses a threat to the health or safety of students or employees; b) when other strategies to change the student's behavior have been ineffective; or c) when required by law. The District will ensure careful consideration of the rights and needs of the individual concerned, as well as the best interests of other students and the school program as a whole.* Students may be denied participation in extracurricular activities. Titles and/or privileges available to or granted to students may also be denied and/or revoked (e.g., valedictorian, salutatorian, student body, class or club office positions, senior trip, prom, etc.). A referral to law enforcement may also be made.

The District will annually record and report expulsion data for conduct violations as required by the Oregon Department of Education.
