

Beginning next year, our athletic department will transition to Arbiter Pay, an online payment system designed specifically for schools and athletic programs. This move will allow us to pay game officials quickly and securely with the click of a button—eliminating the need to print and issue paper checks each week. Arbiter Pay also handles the collection and management of required tax forms, streamlining our administrative process and reducing paperwork for the district. This upgrade will improve efficiency, enhance accuracy, and ensure our officials are paid promptly and electronically.
