

Consent Action Item – F5

Subject: Consider/Approve ECI Billing Rates for 2017-2018

ACTION

Background Information

The Early Childhood Intervention Program provides direct services to developmentally delayed children birth to three years of age and their parents. Multiple services are provided and we bill to various sources including private insurance, Medicaid and CHIP.

Administrative Consideration

Following is a list of the services, billing codes, the current billing prices, and the proposed amounts for 2017-2018. Rates quoted are hourly unless otherwise noted. We have added rates for Specialized Skills Training this year. This was previously billed by the DARS ECI State Office as developmental services.

Administrative Recommendation

It is recommended that the proposed rates be approved as presented.

Board Action Requested

Motion for approval.
