

Committee Working Map A: 2021

Previously: Test Map 8

MS Boundaries: Working Map A

All projected 6-8th graders by today's boundaries.

All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only
Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

MS Boundaries: Working Map A 2.1

All projected 6-8th graders by today's boundaries.
All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only
Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

MS Boundaries: Working Map C 2.0

2019: 9-12th Oak Hills in Westview
 240 total, 20 attend Options, 5 attend other Comp HS - 215 total at WHS
 ~8% attend Options

All projected 6-8th graders by today's boundaries.
 All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only
 Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

1. Move southern portion of Springville & all of Rock Creek to Five Oaks
2. Move northern portion of Springville to Stoller
3. Move Raleigh Park to Whitford

All projected 6-8th graders by today's boundaries.
 All projected 6-8th graders by the proposed boundaries.

Derived from average Options attendance from elementary schools that make up the proposed MS boundaries. These students are expected to not attend their home MS.

Derived from average AHP and SUMMA program enrollment by elementary boundary. SUMMA students are re-distributed by SUMMA location below.

Projected students after Options, AHP and SUMMA are deducted - this is the projected general education enrollment for each proposed MS boundary

Here students that are attending Rachel Carson or SUMMA programs are re-allocated to each middle school location, so they are counted in the total attending enrollment used to calculate utilization of capacity.

Permanent building only
 Permanent building + portables

This table shows the projected middle school population (6-8th grade) that would result from the proposed middle school boundaries shown on the map in a certain projection year. Students who will not attend their home school (Options or Program students) are estimated, and either removed from the count of middle school students (ACMA, ISB, BASE, Aloha-Huber Park) or are re-allocated to a middle school location (Rachel Carson to Five Oaks, and SUMMA program students).

The total attending population (resident students and program students) are totaled and compared with the available capacity at each middle school location.

For Proj. Yr 2025

	Cedar Park	Conestoga	Five Oaks	Highland Park	Meadow Park	Mountain View	Stoller	Timberland	Whitford	Total
