EXECUTIVE SUMMARY:

Campus WiFi for Students:

To better serve students who do not have adequate Internet connectivity at home, we have temporarily boosted the power on all classroom WiFi radios to full power so that families can park curbside near the four campuses to connect to our filtered Internet. Working with the facilities department, we have purchased outdoor WiFi access points to be mounted at the main entrance of each campus. These devices have a range of 600 feet that will provide a stronger and faster connection for our families. Using Google Docs "Offline", students without Internet at home will be able to automatically sync their completed assignments and download new ones. The guest network will be available from sunup to sundown seven days a week.
