Subject: June Board Report

## June Board Report

### **25-26 Preparation:**

We have been assessing our needs for the upcoming school year, to ensure that all students are receiving the correct services and placed in the proper classes.

### **Extended School Year In Progress:**

Extended school year started on Friday, May 30<sup>th</sup> for those students that qualify. This year, all the cross-categorical classrooms are scheduled for the same dates in order to streamline some of the process for the district.

The junior high and high school programs are spending time on academics and functional life skills this summer. Students are participating in community outings, preparing and cooking breakfast, practicing social skills around the building, and working towards their academic and IEP goals.
