Background Information

In response to requests from MSBA members, the Minnesota School Boards Association (MSBA) has created a model policy for selection and reconsideration of library materials. The objective is to support school districts and charter schools in establishing processes that are clear, that include input from students, families, and school staff, and that rely upon the experience and training of school staff.

As with other MSBA model policies, Model Policy 606.5 offers Notes that explain items and which offer guidance to school boards on decisions that they may choose to make as they engage in the policy adoption process.

The model policy language is presented as a stand-alone policy.
This policy was presented on November 6 for a first reading.
This policy was presented on November 20 for a second reading.
This policy is presented for a final reading.
