Table of Contents

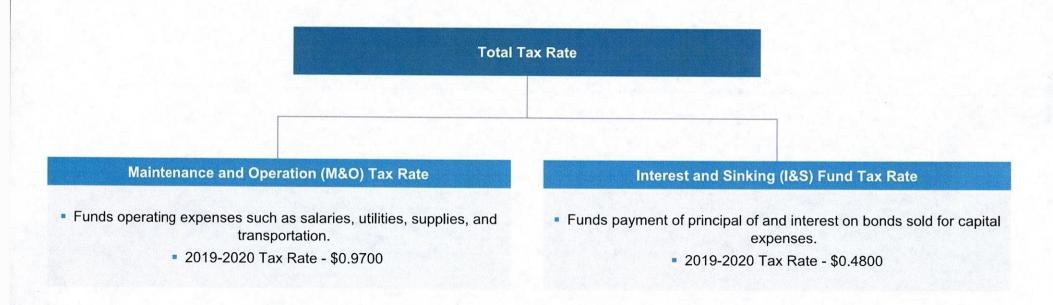

- 1. Overview of Bond Issuance Process
- 2. Preliminary Refunding Analysis
- 3. Economic Conditions and Market Update

Section 1

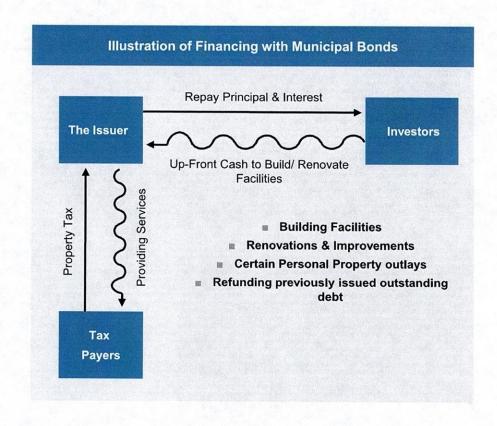

Breakout of the Total Tax Rate and Lawful Uses

- The total tax rate is split into two different components:
- Maintenance and Operations (M&O) Used for the day-to-day operations of the entity, including salaries, utilities, capital outlay, supplies, food, gas, etc.
- Interest and Sinking (I&S) Funds building and capital outlay expenditures and can only be used to pay principal and interest on construction or refunding bonds.

Overview of Municipal Bonds

- Bonds similar to a home or car loan; It is a contract to repay borrowed money over time and are sold by municipal entities to raise funds for capital outlay.
- Approval a bond election is usually required to authorize the sale of bonds.
- A bond is essentially a loan an investor makes to the Issuer for:
 - New buildings
 - Additions and renovations to existing facilities
 - Land acquisition
 - Technology infrastructure
 - Equipment for new or existing buildings or
 - Personal property such as buses or furniture
 - Refunding outstanding debt
- Benefits of Bonds
 - Receive cash up-front to finance capital outlay now
 - Tax-Exempt Rates

Financial Team Needed to Complete a Debt Financing

Issuer's Team

- Issuer Administration / Board
- Financial Advisor: Coordinates the overall financing process to assist the Issuer in meeting its long-term goals by attempting to achieve the most cost and tax efficient solution possible. This involves providing a plan of finance, presentations to rating agencies, drafting of Official Statement, coordinating the actual sale and delivery of bonds and other matters related to debt issuance. Has a fiduciary obligation to the Issuer.
- Bond Counsel: An attorney representing the Issuer who prepares the legal documentation of the issuance, provides both State Law and Federal tax law opinions and coordinates approval by the Attorney General. Has a fiduciary obligation to the Issuer.

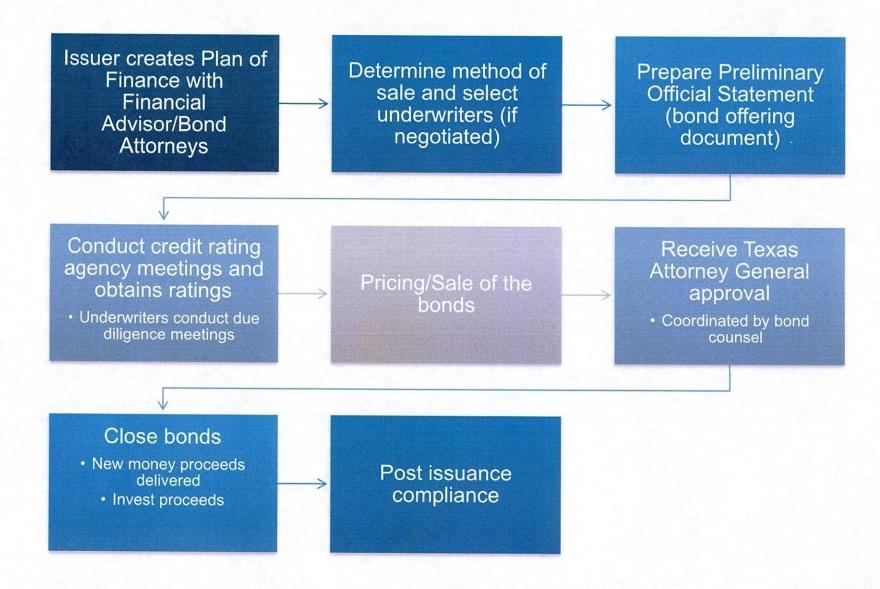

The "Other Side"

- Underwriter(s): Responsible for distribution, sale, and / or purchase of bonds. The Underwriter commits to purchase the Issuer's debt at certain interest rates, then sells the debt obligations to various institutional and/or retail investors and is responsible for timely delivery of the debt to buyers / proceeds to the Issuer. DOES NOT HAVE a fiduciary obligation to the Issuer.
- Underwriter's Counsel: Attorneys representing the Underwriter to perform due diligence on the transaction, review disclosure documents and prepare the bond purchase agreements. DOES NOT HAVE a fiduciary obligation to the Issuer.

Other Essential Players

- Rating Agencies: Independent firms that provide opinions on the relative creditworthiness of an issuer and the debt instruments (bonds or otherwise, as discussed later). Despite the PSF guarantee which assures Texas school districts of a AAA rating, underlying bond ratings are important in the bond process.
- Attorney General: Provides final approval related to issue's compliance with state law and procedures.
- Paying Agent/Registrar: Receives the Issuer's debt service payments prior to debt service dates and distributes these funds to the debt holder.
- Permanent School Fund (PSF) Guarantee: Administered by the Texas Education Agency (TEA) this program provides every Texas school district a "AAA" bond rating allowing participating school districts to borrow at lower interest rates.

Flowchart of the Bond Issuance Process

Developing a Plan of Finance

- Consider specific financing alternatives that can achieve the <u>lowest overall costs</u> consistent with the Issuer's requirements for flexibility and its parameters for maintaining an acceptable tax rate.
- Key concerns to keep in mind include:
 - Median levels of debt-to-assessed-valuation ratios for Issuers of your size.
 - Debt repayment which will retire 50% or more of your principal halfway through total debt amortization.
 - Structuring of overall debt service requirements to accommodate future borrowing needs.
 - Reasonably aggressive call features to accommodate potential refundings for economic savings or cash flow purposes.
 - Structuring that takes advantage of market vacuums to lower overall costs.

^{***}This is not intended to be an in-depth discussion but only a general guide to help you understand key issues which should be fully explored as you proceed with your financings.

The POS - Preliminary Official Statement

- The Issuer's document
- Prepared by Issuer, bond counsel and financial advisor
- Presented to investors by underwriting syndicate to solicit interest in the bonds
- Finalized after pricing

OFFICIAL STATEMENT Dated December 17, 2014

NEW ISSUE - Book-Fatry-Only

ENHANCED/UNENHANCED RATINGS: Fitch: "AAA"/ "A+"
PSF Guaranteed
(See "THE PERMANENT SCHOOL FUND
GUARANTEE PROGRAM" and "OTHER
INFORMATION - Ratings" herein)

In the opinion of Bond Counsel (defined below), assuming continuing compliance by the District (defined below) after the date of initial delivery of the Bonds (defined below) with certain covenants contained in the Order (defined below) authorizing the Bonds and subject to the matters set forth under "FEDERAL TAX MATTERS" herein, interest on the Bonds for federal income tax purposes under existing statutes, regulations, published rulings, and court decisions (1) will be excludable from the gross success of the owners thereof pursuant to section 103 of the Internal Revenue Code of 1986, as amended to the date of initial delivery of the Bonds, and (2) will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as hereivafter described corporations. (See "FEDERAL TAX MATTERS" herein.)

\$25,835,000
SOUTH SAN ANTONIO INDEPENDENT SCHOOL DISTRICT
(A Political Subdivision of the State of Texas located in Bexar County)
UNLIMITED TAX REFUNDING BONDS, SERIES 2014

Dated Date: December 15, 2014 (Interest accrues from Delivery Date)

Due: August 15, as shown on inside cover page Delivery Date: On or about December 30, 2014

The South San Antonio Independent School District Unlimited Tax Refunding Bonds, Series 2014 described above (the "Bonds") are being issued by the South San Antonio Independent School District (the "District") pursuant to the Constitution and general laws of the State of Texas (the "State"), particularly Chapter 1207, Texas Government Code, as amended, ("Chapter 1207"), and an order (the "Order") adopted by the District's Board of Trustees (the "Board") on December 17, 2014 authorizing the issuance of the Bonds.

The Bonds are direct obligations of the District, issued in part as current interest bonds ("CIBs") and in part as "Capital Appreciation Bonds" on which interest is accreted and paid only at maturity ("CABs"), and are payable from an annual ad valorem tax levied, without legal limitation as to rate or amount, on all taxable property located within the District. (See "THE BONDS - Security and Source of Payment"). The District has received conditional approval from the Texas Education Agency for payment of the principal of, Maturity Value (defined herein), and interest on the Bonds to be guaranteed under the Texas Permanent School Fund Guarantee Program, which will automatically become effective when the Texas Attorney General approves the Bonds. (See "THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM"; see also "STATE AND LOCAL FUNDING OF SCHOOL DISTRICTS IN TEXAS" and "CURRENT PUBLIC SCHOOL FINANCE SYSTEM" for a discussion of recent developments in Texas law affecting the financing of school districts in Texas).

Interest on the CIBs will accrue from the Delivery Date, specified below, and will be payable on February 15 and August 15 of each year, commencing on August 15, 2015, until maturity or prior redemption, and will be calculated on the basis of a 360-day year of twelve 30-day months. Interest on the CABs will accrete from the Delivery Date to the initial purchaser of the Bonds named below (the "Underwriter"), will compound semiannually on February 15 and August 15 (each an "Accretion Date"), commencing August 15, 2015, and will be payable upon maturity. The definitive CIBs will be issued as fully registered obligations in the principal denomination of \$5,000 for any one stated maturity. The CABs will be issued in denominations of \$5,000 of Maturity Value, or any integral multiple thereof within a maturity. The Bonds will be initially registered and delivered only to Cede & Co., the nominee of The Depository Trust Company, New York, New York ("DTC"), pursuant to the Book-Entry-Only System described herein. Book-entry interests in the Bonds may be acquired in denominations of \$5,000 or integral multiples thereof. No physical delivery of the Bonds will be made to the comers thereof. Principal of and interest on the CIBs and Maturity Value on the CABs will be payable by the Paying Agent/Registrar to Cede & Co., which will make distribution of the amounts so paid to the participating members of DTC for subsequent payment to the beneficial owners of the Bonds. (See "THE BONDS - Book-Entry-Only System" herein.) The initial Paying Agent/Registrar is The Bank of New York Mellon Trust Company, N.A., Dallas, Texas. (See "THE BONDS - Paying Agent/Registrar").

Proceeds from the sale of the Bonds will be used for (i) refunding a portion of the District's currently outstanding obligations identified in Schedule I attached hereto (the "Refunded Obligations") and (ii) paying the costs of issuing the Bonds. (See "PLAN OF FINANCING – Purpose".)

SEE STATED MATURITIES, PRINCIPAL AMOUNTS, MATURITY VALUE, INTEREST RATES, INITIAL YIELDS, CUSIP NUMBERS, AND REDEMPTION PROVISIONS ON PAGE iI HEREIN

The Bonds are offered for delivery when, as, and if issued and received by the Underwriter and subject to the approving opinion of the Attorney General of the State of Texas and the legal opinion of Winstead PC, San Antonio, Texas, Bond Counsel, and Bracewell & Giuliani LLP, San Antonio, Texas, Disclosure Counsel. Certain legal matters also will be passed upon for the Underwriter by its counsel West & Associaes, L.L.P., Dallas, Texas. It is expected that the Bonds will be available for initial delivery through the services of DTC on or about December 30, 2014 (the "Delivery Date").

Overview of Credit Ratings

- Approximately four weeks prior to the sale of bonds, an application will be submitted to one or more of the rating agencies to assign an independent rating to the Issuer's debt obligations. The rating is a reflection of the Issuer's creditworthiness and is relied upon by investors that purchase the Issuer's debt obligations. The major rating agencies are:
 - Moody's Investors Service;
 - Standard & Poor's; and
 - Fitch Ratings.
- In examining the Issuer's financial stability, the rating agencies will consider such things as:
 - The Issuer's local economy and tax base;
 - Administrative factors:
 - Issuer's debt policies; and
 - The Issuer's overall financial condition.
- After considering all factors, the rating agencies will assign a rating to the debt obligations. In general, the higher a Issuer's rating, the lower the interest rate demanded by investors. This is due to the lower degree of risk associated with a higher rated debt obligation.

10

Credit Rating Categories

• The categories of long-term credit ratings are provided below. It is important to emphasize that most Texas school districts may potentially have their voted bonds secured by the Permanent School Fund Guarantee of the State of Texas ("PSF") and thereby receive the highest bond rating available, "Aaa/AAA"

"Aaa / AAA"

• Issuers rated "AAA" offer exceptional financial security. The Issuers' capacity to meet its financial commitment on its obligations is extremely strong. While the creditworthiness of these entities is likely to change, such changes as can be visualized are most unlikely to impair their fundamentally strong position. This is the enhanced rating on all PSF secured debt.

"Aa / AA"

• Issuers rated "AA" offer excellent financial security. Together with the "AAA" group, they constitute what are generally known as high-grade entities. They are rated lower than "AAA" rated entities because long-term risks appear somewhat larger. The Issuers' capacity to meet its financial commitment on its obligations is very strong.

"A / A"

Issuers rated "A" offer good financial security. Issuers rated "A" are somewhat more susceptible to the adverse effects of changes in circumstances
and economic conditions than issuers in higher-rated categories. However, the Issuers' capacity to meet its financial commitment on its obligations
is still strong.

"Baa / BBB"

Issuers rated "BBB" offer adequate financial security. However, adverse economic conditions or changing circumstances are more likely to lead to
a weakened capacity of the issuer to meets its financial commitment on its obligations.

"Ba / BB," "B / B," "Caa / CCC," "Ca / CC," and "C / C"

Issuers are regarded as having significant speculative characteristics. "BB" indicates the least degree of speculation and "C" the highest. While such issuers will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

11 RBC Capital Markets

Credit Rating Categories

- Moody's Investors Service applies numerical modifiers "1", "2", and "3" in each generic rating category from Aa to Caa.
- Fitch Ratings, and Standard & Poor's Rating Service applies modifiers "+" and "-" in each generic rating category from "AA" to "CCC."
- Modifiers "1" and "+" indicate that the Issuer is in the higher end of its letter rating category; the modifier 2 indicates a mid-range ranking; and modifiers "3" and "-" indicate that the issuer is in the lower end of the letter ranking category.
