Brockett Elementary has continued to experience a large student population growth causing the campus to be near capacity. If the growth trend continues, it would not be financially frugal to add teachers when other campuses currently have the capacity to host more students. In Pre-K through 4th grade, the state only allows a student teacher ratio of 22:1. It is vital that administrators and the board of trustees look at all possible options and make a decision about school configuration for the next school year. Your input is valuable in assisting us to make a sound decision that also continues the financial integrity that is important to our taxpayers. Please look at the following options and rank them according to which you feel is most feasible. We encourage other ideas as well. Thank you for your input!

1. Please rank the following options for balancing enrollment (1-4 with 1 representing the BEST option).* Rank the items below, using numeric values starting with 1.

Insert

Move fifth grade from both elementary campuses to the Middle School building and develop a 5th/6th grade campus and 7th/8th grade campus within the same building beginning in the 2011-2012 school year.

Edit

Copy

All kindergarten students in AISD would go to Monaco Elementary School. Brockett Elementary would then become a 1st-5th grade campus.

Move

Leave Brockett Elementary as is and redraw the attendance zone lines for the elementary schools to balance enrollment (How they are redrawn would be determined later).

Break

Continue with our current procedure. When all sections at Brockett Elementary are filled, students registering after that time enroll at Monaco Elementary providing that all federal guidelines are followed.
