Hi, Dick.

I have your quote below. I am quoting the equipment and surfacing materials, with installation as an optional add-on. You may find that the school can provide volunteers who understand construction to handle the installation.

I have attached a plan view and 3-D renderings of the playsystem for you, along with a copy of our warranty and information on Engineered Wood Fiber safety surfacing.

The playsystem I am quoting for you is the #6524-132.... it is the #6524 you asked about with the 2-chute slide traded for a wide slide (to make it match the standards for kids ages 2-12, instead of only preschoolers), also, it has 2 ground level events added to make it a self-contained ADA compliant set (doesn't need outside events like swings or rides or anything to meet the ADA law). And I took off the roof, in an effort to make the system fit your budget better. If you want the roof included, add \$400 back to your order. Here's your quote:

6524-132 **ages 2-12** **req area: 20' x 29'** **20-22 kid capacity**
ADA Compliant: Wheelchair transfer station, 8 total events: 6 elevated events (all on accessible pathway), 2 ground events

Playsystem #6524-132, your cost: \$6,325 (Retail price: \$8,550)
Freight on Equipment to Harvey IL 60426: no charge

Safety Surface Materials – 20'x32' EWF @ 9" compressed (12" fresh) with borders, stakes, groundcloth, fill and
Spillway ADA access: \$2,350
28 borders @ 4ft
29 stakes @ 30in
75 sq yd Geotextile fabric
24 cu yd Woodcarpet Eng. Wood. Fiber

Materials: \$1670
Freight on EWF: \$680

6524-132 with Surfacing Materials, your cost: \$8,675

Optional Add for Installation:

Install Playsystem #6524-132: \$2550
Install EWF Safety Surface for above: \$770

Add for installation: \$3,320

Optional Add for Roof: \$400

I hope this gives you exactly what you need. Good Luck, Dick! Call me with questions, or if you need more information.

Best regards,

11995,00
