BACKGROUND INFORMATION

It has been approximately eight years since Argyle ISD adopted a strategic plan guiding all departmental areas — a vital process for any organization striving for long-term success. Strategic planning helps define an organization's direction, align its goals, and prioritize resources to ensure meaningful outcomes.

In **September 2024 at a board workshop**, the **Argyle ISD Board of Trustees** adopted a new **mission statement, vision statement, and set of core values**. These foundational elements laid the groundwork for the development of a **staff and community-driven, five-year Collaborative Visioning Plan**.

The **Collaborative Visioning Process** equips the district to:

- ✓ Clarify its mission, vision, core values, and motto
- ✓ Speak with one unified voice
- ✓ Move forward together in a shared direction
- ✓ Support students holistically across all areas of their education

The result of this process is a clear, community-developed **guiding strategy** — one that outlines what Argyle ISD intends to accomplish and the **key initiatives** that will help us achieve those goals.

Together, we are building a **future rooted in tradition, guided by values**, and **focused on excellence** for every student.
