

## Teacher Leadership Personnel Assignments for 2023 – 2024

### **Background:**

Our Teacher Leadership Cadre (TLC) rewards effective teachers with leadership opportunities and higher pay, attracts promising new teachers with competitive starting salaries and more support, and fosters greater collaboration for all teachers to learn from each other. Through the system, teacher leaders take on extra responsibilities, including helping colleagues analyze data and fine tune instructional strategies as well as coaching and co-teaching.

TLC teachers are appointed annually for one-year assignments only. Our current Belmond-Klemme TLC plan calls for two Instructional Coaches and up to 13 Teacher Leaders.
