## Board Agenda Item Request

**AGENDA ITEM:** Plant Facilities Levy Resolution

**PURPOSE:** Approve/Deny Requestion Legal Prepare Resolution for a Plant Facilities Levy

**MEETING DATE:** February 18, 2026

**PREPARED BY:** Jessica Grantham, Tim Haag

---

### **INFORMATIONAL SUMMARY:**

District Leadership is requesting Board authorization to proceed with the development of a proposed Plant Facilities Levy Resolution for future Board consideration.

District Leadership recommends pursuing a five-year (5) levy term with a proposed levy amount of \$3,000,000 annually.

Pursuant to Idaho Code §33-701(8), school districts may seek voter approval for a plant facilities levy for a term of one (1) to ten (10) years. The measure requires a 55% majority vote for passage.

If authorized to move forward:

- Legal counsel will prepare the formal levy resolution and ballot language for Board review and potential adoption at the March 4, 2026, Board meeting.
- The election would be held on May 19, 2026 (Primary Election).
- Ballot language must be submitted to the counties no later than March 13, 2026.

### **FISCAL IMPACTS:**

A Plant Facilities Levy would establish a dedicated funding stream to support:

- Ongoing facility maintenance
- Necessary repairs
- Major infrastructure improvements

Lakeland Joint School District does not currently have a Plant Facilities Levy. With potential reductions in State funding on the horizon, establishing a local plant facilities levy would provide greater financial stability and allow the District to maintain its facilities in a responsible, proactive, and sustainable manner.

**ADDITIONAL OPTIONS:**

If the Board elects not to pursue a Plant Facilities Levy, the District could consider incorporating facility-specific funding into a future Supplemental Levy; however, that approach would not provide the same long-term stability and dedicated structure as a Plant Facilities Levy.

**OTHER INFORMATION:**

The District has received approximately \$20 million in School District Facilities Modernization Funds. These funds are projected to be fully expended by the end of Summer 2027.

As reflected in the attached Proposed 5-Year Deferred Maintenance & Infrastructure Improvement Plan, additional funding will be necessary to address ongoing deferred maintenance and critical infrastructure improvements across the District.

District Leadership believes it is strategically important to pursue the Plant Facilities Levy in May 2026 to separate it from the District's Supplemental Levy.

Running the Plant Facilities Levy during the May 2026 election cycle would:

- Avoid combining two levy requests on the same ballot
- Reduce voter confusion between operational and facilities funding
- Decrease the frequency of asking the community to consider two levies simultaneously
- Provide clearer long-term financial planning for facilities' needs

Additionally, pursuing a five-year term would further reduce the frequency of overlapping cycles, promoting greater funding stability and minimizing election fatigue for the community.

**RECOMMENDATION:**

District Leadership recommends that the Board authorize legal counsel to prepare the proposed Plant Facilities Levy Resolution and corresponding ballot language for future Board review and potential action.
