Attn: Don Daniel

To the Aledo Board of Trustees,  
Thanks to your creative and diligent effort  
in the MAKE EDUCATION A PRIORITY campaign  
and initiative. Your energy, expenses, perseverance  
and passion has spread across our great state and  
has mobilized the core with <sup>the</sup> hope of impacting our  
elected leaders regarding the future of millions of  
school children! The message is clear and consistent.  
The grim budget draft released this week signals a  
real challenge before us. My hope is that the number  
of runners in this race will multiply quickly  
joining us on this essential journey.

With appreciation and gratitude for your important  
role of public awareness and communicating to  
the stakeholders and may all unite in advocating  
for public education.
