**Application for Subzone or Usage-Driven Designation (“Minor
Boundary Modification”) Under the Alternative Site Framework (ASF)**

Instruction Sheet

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provision of law, no person is required to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to average 3.5 hours, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Persons wishing to comment on the burden estimate or any aspect of this collection of information, or offer suggestions for reducing this burden, should send their comments to the ITA Reports Clearance Officer, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC 20230.

No zone, subzone, zone expansion/reorganization/modification, or production authority may be approved unless a completed application/notification/request has been received (19 U.S.C. 81a-81u; 15 CFR Part 400). The Foreign-Trade Zones Board has no authority to finance zone projects. Its approval is in the form of a grant of authority (license) for operating a facility under foreign-trade zone procedures. The basic requirements for foreign-trade zone applications are found in the regulations of the Foreign-Trade Zones Board (15 CFR Part 400), including Sections 400.21 through 400.25. Application formats are available on the [FTZ Board web site](#).

Corporations submitting applications must be qualified to apply under the laws of the state in which the zone is to be located. Applicants may submit drafts of their applications to the FTZ Staff, which can provide comments and technical assistance in interpreting the Board's regulations.

Applicants should note that conduct of their proposed activity under FTZ procedures would result in an additional, ongoing information-collection burden associated with the Annual Report from Foreign-Trade Zones (OMB Control No. 0625-0109).

Alternative Site Framework

APPLICATION FOR SUBZONE OR USAGE-DRIVEN DESIGNATION (“MINOR BOUNDARY MODIFICATION”)

NOTE: This format is only for a Minor Boundary Modification (MBM) to propose a “Subzone” or “Usage-Driven” site(s) under the Alternative Site Framework (ASF).

INSTRUCTIONS

General: The actual submitted request may take the form of a letter from the grantee requesting approval and answering each question listed below. Alternatively, the request may include a cover letter from the grantee identifying the specific Subzone/Usage-Driven site for which it is requesting approval and then a separate document answering the questions below. Leave each question in place (including its number) and provide your response directly below each question.

Subzone versus Usage-Driven Designation: Under the FTZ Board’s regulations (§400.24(c)), a grantee can request designation of a site(s) as a subzone that qualifies for usage-driven status, where warranted by the circumstances and so long as the subzone activity remains subject to the activation limit for the zone in question. As with usage-driven sites, subzone sites designated under this process will be subject to the standard three-year sunset provision.

Sites versus Parcels: A "site" is comprised of one or more generally contiguous parcels of land organized and functioning as an integrated unit, such as all or part of an industrial park or airport facility. If parcels do not meet that definition, they must be treated as separate sites.

Submitted Request Must Be Complete: Submitted MBM requests must be complete – with the sole allowable exception of any comments from U.S. Customs and Border Protection (CBP), if necessary. Incomplete submitted requests or documents submitted separately will be returned to the sender. The FTZ Staff cannot assemble complete requests from individual elements submitted separately.

If a letter from CBP is not included, a copy of your request must be provided to CBP no later than when the request is submitted to our office (see section 400.38(a) of the FTZ Board’s regulations). When providing the copy to CBP, you can note that the regulations provide CBP with 20 days to submit comment

Submission of Completed Application: Submit the final application by email (ftz@trade.gov) (Adobe PDF format preferred; you may use MS Word format if you are unable to submit PDF). The application must include color maps and signed versions of all letters.

Timing: Under the FTZ Board’s regulations, the ordinary timeframe to process MBM requests is within 30 days of the FTZ Staff having received a complete request. Timing will depend on receipt of CBP’s comments on the request.
